Letter From The Chair
By Kathy Cheever

The time has come to say "Goodbye" to our 50th anniversary year!! It started out at last January's annual banquet and Joe Young's wonderful narrated photo presentation of the past 50 years!!! So much to celebrate over the years and I hope everyone had a chance this past year to participate in an event or hike that was special to them either in memory or as something new to remember for the 100th anniversary!!

The Grande Finale! The 2005 HPS Annual Banquet!! In lieu of our usual program, this banquet is our opportunity to salute, sing praises (well, maybe not sing, but you get my drift) and yell "all hail" to the people who make this all possible – the HPS leaders!!! We'll be concluding the 50th anniversary events at the January 2005 banquet where we honor our HPS leaders! How very much we need to remember, appreciate, and thank those who take the time to think of a peak to climb, figure out a way to get up it, scout out ahead of time to make sure it all works as expected, write up the opportunity for The Lookout or sometimes 6 months in advance for The Schedule, gather names, phone numbers, email addresses, etc. etc., organize meeting places, give advise to want-a-be participants, get up awfully early, collect everyone at the trailhead, guide everyone skillfully and carefully up the hiking route, make it to the top (HURRAY) and safely back down to the cars. From there, off everyone goes, back on their own again, reminiscing about the hike's adventures and sharing stories. Perhaps a photo and one of these stories will be shared in The Lookout! How many of us would never have gotten up to at least 1 peak without the help of our wonderful leaders? I can personally think of a whole bunch of peaks and a whole bunch of leaders – and while I sit and think of this, I come up with more and more! Bet you can too! The upcoming banquet is your opportunity to let them know how much you've appreciated their hard work, remarkable skill, and sometimes incredible patience as these folks help us to achieve our goals (the emblem list is ever growing), but mostly as they allow us ever expansive opportunities to enjoy and protect our beautiful peaks and inspiring wildernesses!! Don't miss out on the opportunity to say "Thanks!!" – see you at the Banquet!

It's been a wonderful year being chair! My parting words? Keep up the good work!! Go hiking!! Be safe!!! Have fun!!! Does it get any better than that!!

News Flash!
While trails in Cuyamaca Rancho State Park are open to hiking, hiking off routes is prohibited. This includes hiking to the summit of Middle Cuyamaca Peak. Therefore Middle Cuyamaca Peak is suspended for six months.
Please do not attempt to hike to its summit.

Hundred Peaks Sectionadopts Resolution Concerning Safety and Other Complaints
By Kathy Cheever

This past year we've received requests for clarity on how to proceed with complaints, official or implied. Guess they do come up from time to time. After looking over the Sierra Club policies, etc. we resolved the following:

A RESOLUTION Concerning Safety and Other Complaints

(A) WHEREAS, the proper handling of safety and other complaints is of the utmost importance to the safety and enjoyment of participants and leaders of Hundred Peaks Section (HPS) outings and events, and

(B) WHEREAS, there is no legitimate basis for anonymous complaints, and a malicious and unjustified anonymous complaint can disrupt the responsible handling of legitimate safety and other complaints and unjustly inflict great personal distress upon the subject of the complaint, and

(C) WHEREAS, the leaders and participants involved in outings are always a critical source of information in understanding how and why incidents occur on those outings, and

(D) WHEREAS, National Bylaws and Standing Rules of the Sierra Club, SR 2: Civil Disobedience states: 1. The Sierra Club will not encourage, request or direct any person to violate the law. No chapter, group, or other entity of the Club shall encourage, request or direct any person to violate the law. 2. "The Club recognizes that it cannot control the private actions of its members, and in particular cannot prevent its members from engaging in acts of civil disobedience", and

(E) WHEREAS, the policy of the Sierra Club, SR 15-1-1, clearly states that there is no place in Sierra Club events or outings for libelous or defamation statements, unfounded claims of libel or defamation, or harassment (sexual or otherwise) of leaders or participants. Such action by any Sierra Club leader or participant will not be tolerated. Violation of this policy will result in disciplinary action, including loss of leadership status and loss of the privilege of participating in Club events or outings.

THEREFORE, BE IT RESOLVED:

(1) HPS will not encourage, request or direct any person to violate the law. HPS hikers and leaders are required to follow the Bylaws and Standing Rules of the Sierra Club and laws of the prevailing land management on scheduled outings and official HPS events or documents. HPS strongly encourages adherence to the rules of these governing organizations at all times.

(2) HPS will not tolerate libelous or defamatory statements, unfounded claims of libel or defamation, or harassment (sexual or otherwise) of leaders or participants on scheduled outings, or other official HPS events or document (such as, but not limited to, the annual banquet, The Lookout, HPS websites & listservs, provisional leader evaluations, ballots, etc).

(3) HPS will not consider or act upon any complaint unless the alleged incident occurred on a scheduled outing or other official HPS event or document. HPS will consider all incidents not associated with scheduled outings or official HPS events or document as strictly the responsibility of the individuals concerned. Those individuals are solely responsible for their actions and/or repercussions of such actions.

(4) HPS will not consider or act upon any anonymous complaint unless the information in the complaint is corroborated by a named source.

(5) HPS will always contact the leaders and/or participants named in any complaint at the outset of an investigation, and will fully consider (but not be unduly swayed by) what information the leaders and/or participants can provide.

(6) HPS will call upon the Angeles Chapter Safety committee and other Chapter entities to implement procedures at the Chapter level consonant with Sections (1) through (5) above.

Take nothing but pictures; leave nothing but footprints.

PALM SPRINGS TRAM DISCOUNT CARDS

Another benefit available to The Lookout Subscribers is eligibility for an Alpine Club Card, which gives you 15% discount on tram rides for up to 4 people (plus 10% discount in the restaurant and gift shop). There are 7 HPS peaks in that area and it's not too soon to start planning your next expedition. Leaders may ask for a few extra cards for trip participants. Send your SASE and card request to:

Combined Trip Reports by Tom Hill

A trip report circulated by e-mail last year (but not published) celebrated Virgil’s 200th lead. It seems somehow fitting a year later to revisit the events on a very similar trip. What I said on behalf of Virgil applies equally to all leaders who struggle along a very long road that takes years to accomplish.

Narrative for Virgil’s 200th Lead

HPSers soon discover a simple system. It’s fairly easy to grab a few extra peaks here and there when weather and schedule cooperate. Just call around and find some fellow hikers looking for action. For leaders, well...

Leader wannabes pass through some qualifying rounds. You pass, great! Now you’re ready to “lead”; i.e. take public responsibility for tramping around in the wilderness with groups of people who say they are qualified to join you.

Then follow Recipe: Find a few others like you willing to team up for leading trips. Like in a marriage, you dedicate yourselves to cooperate in good times and bad, for better for worse. Proceed to marry several of these soulmates. No arguing, please. Then meet with them and thrash out a realistic plan for each outing you want to schedule. For example, you need a date. Predict the weather next year, choose a day with fair weather, then submit a written proposal to essential authorities and respond to their helpful hints on where you went wrong.

The planned trip draws nigh. Is it a go?? Who knows. Meanwhile field the amazing creativity shown in your participant inquiries, and then... at last... lead! Encounter strange natural phenomena and bizarre behavior on each trip, giving you a unique perspective on the world.

Repeat the Recipe 200 times. That’s Virgil Popescu, who celebrated leading 200 HPS peaks December 21 on Rattlesnake Mtn south of Hesperia. He joins only 13 others who have accomplished this, a small gallery of personalities that reads like an HPS Hall of Fame.

Each trip is unique and memorable, with this one no exception. We met 7am at Fairplex Park & Ride in Pomona. It’s next to the I-10, north of the freeway at the Fairplex exit just past the 57 interchange. It was our first experience with this new rideshare venue. A CHP officer pulled in, no doubt to look us over, and simply smiled. One fixture drawing our eagle-eyed attention was a public port-a-potty. Imagine! No morejaywalking across Towne Ave to pound on the church door to see if they are as ready, willing, and able as you are. No more cars scuttling into the local Towne neighborhood to find “safe” parking spots on side streets before everybody leaves.

Then the ten of us took off. Toward a black cloud looming over Big Bear Lake! Naturally we persevered, for this storm was leaving (last week we experienced an incoming storm, quite a different matter). In fact, the day became “sunny and bright” with nothing but “blue skies” smiling at us.

To have a crack at Luna (or its “Lunatic” sidekick at 5604’ just northeast of Luna) we chose Route 2, entering the area from the Hesperia side near Bowen Ranch, then turning left at the Luna Vista Ranch turnoff just before reaching Bowen’s spread. We parked at the bottom of the steep hill climb mentioned in the peak guide — since some of our vehicles were 2wd — and began our first loop. Round Mtn was short and sweet and steep. As a mountain, it’s little, but it sure is an unmistakable landmark. Aha, Virgil’s lead #199.

Next we undulated cross-country to the jeep road that nudges the desert slopes of Luna. You need to realize that Luna (our “Moon” peak) was chosen as quite suitable for the Winter Solstice, although we hoped to finish before the 11:04 pm timing of this astronomical marvel so celebrated by the ancients: The sun rises! You also need to realize that there had been some discussion about whether or not this peak was accessible because of fire closures. We now report that all gates are open, there’s no public notice of any closure, and as evidence of usage we noted a hunter with bird dog romping happily on the NW slopes of the peak. What a difference from Luna’s Route 1 (using road 3N59 from the junction with 3N14) with its unsassiable barricades and dire warning signs.

The “Lunatic” was scouted and deemed to be unsuitable for the List, with main drawback being the proximity to Luna itself a mere one mile away. Then it was off to Rattlesnake with an imposing navigational challenge, issued by no less than Virgil himself: Could he find the summit among so many unlikely candidates, leading directly to the correct bump from the vehicles? Up and up we went, until we topped out at (gasp) the summit bump and rockpile containing the register. Two bottles of sparkly and much goodies were passed
around, ably consumed in short order by Virgil and Tom with the help of participants: James Carden, Bob McEwan, Marlen Mertz, Robert True, Gary Schenk, Mary Jo Dungfelder, Paul Garry, and Pat Arredondo.

Narrative for Tom’s 200th Lead

The trip on December 4, 2004 was similar. We met at the superior Pomona Fairplex rideshare point, then met others at the McDonald’s parking lot off Hwy 138 at Cajon Pass. The day was crisp and sunny, with views beautifully limned with snow in unexpected places, low and on the south side of the hills. Even the trailhead parking area for Circle Mtn was reminiscent of a skating rink. We proceeded smoothly to the summit along the firebreak route on a path that alternated between patchy snow and bootloads of snow.

An easy descent (after a celebration of course) found us in short order parked at the first gully crossing on the dirt road that leads to Gobblers Knob. Snow and ice prevented further vehicle advance but a kindly jeep had somehow laid tracks to the upper ridge, rendering the road into a double-track foot trail that made for easy going to this “Thanksgiving” peak.

And we do give thanks, for the circumstances that enable us to enjoy such pleasant days among the forest and mountains, for memories that call us back again and again, for leaders such as George Wysup and Pat Arredondo who provided kindly support this day, and also for the good-natured participants who made the outing into a special occasion: Joe Whyte, Kevin Lahey, David Levine, Hai Huang, Rudy Fleck, Don Croley, and Laura Stockton. An unexpected meeting also added delightful Martin Parsons and Edith Liu to the mix, who showed off their snowshoe skills on Gobbers.

Tom Connery Finishes List on Scodie
By George Wysup

On Nov 14, 2004, Tom Connery finished the HPS List on Scodie Mtn (7294’), accompanied by his 2 friends, 7 acquaintances, and 2 people who had never heard of him. Many others were invited but were sharpened to come up with great excuses not to attend.

We decided to strike while the peak was hot, avoiding the possibility that wintry blasts accompanied by deep snow might arrive on the morrow and remain past the HPS banquet day. Tom has never before stood up in public and he wanted his chance to do this on Jan 29 at Taix restaurant.

We opted to ascend and descend via route 3, from hwy 178 just east of Walker Pass, simply because none of us had ever been that way. Unfortunately, the group appointed George Wysup to lead this private trip and he tried to find route 3 but failed miserably (assuming that the actual route 3 hasn’t any class 5 climbing). George was summarily replaced as leader and we all summited in about 2.7 hours, despite having to wait 1/2 hour for Rudy Fleck to go back to find his shirt. Summit treats included champagne and a variety of things chocolate. There was more than enough to satiate even this ravenous bunch. After enjoying this orgy we staggered back, arriving at the cars in about 1.7 hours.

Leaders: Ron Jones and Leora Jones

I had scheduled this peak as an easy HPS K-9 hike at least four times in the last four years. Once I had to appoint another leader as I had just had surgery for a hip replacement. A second time the trip was rained out. A third time I had another hip replacement and the walk went without me and last year there was a fire closure. This year we lucked out. The weather was perfect and I was able to make the easy hike up the dirt road with our beagle, Hanalei. Hanalei had no K-9 companions and she had to lavish her attention on our small group of four hikers. They were Tim Fairbanks, Pam Koester,
Johanne Larson, and Julie Giraven. Hanalei was well fed at our lunch on the summit. Thanks to my wife, Leora, for an able assist.

Mt Hillyer History Hike
November 13, 2004
Leaders: Ron Jones, Leora Jones, and Lynda Armbruster

Beneath overcast cloudy skies, ten hikers signed in for an HPS history hike to commemorate the leader's anniversary of the HPS List Finish on this peak by Lou Brecheen and me via helicopter on November 19, 1988. Jon Sheldon and Ruth Feldon led the event sixteen years ago. My wife and assistant, Leora Jones, brought along a scrap book covering the event and before our hike we enjoyed looking at the photographs, the sign-in sheet with 97 participants, the bill from Pete Gillies and Western Helicopter for $423.50 to cover the flight costs for Lou Brecheen, two cases of champagne and myself from Fontana to the peak and lots of memories. I invited Lou Brecheen to join us from his home near Seattle he couldn't afford the helicopter ride down from Washington.

Lynda Armbruster, who served as a second assistant leader this year, showed up in helicopter propeller beanie. She was appropriately dressed for a children's TV show. The Silver Moccasin Trail was in terrible shape, mountain bike tracks were every where including high up on the banks of the turns in the trail. Erosion and gullying were extreme in the center of the trail. Otherwise the hike was uneventful to Horse Flat Campgrounds and beyond on the Mt. Hillyer Trail past the Mt. Hillyer high point to the rocky outcrop where the summit register is kept. Frank Dobos, the only multiple list finisher on the trip retrieved the register and we signed in during our lunch break. Our other hikers were Wendy Conlon, Pam Koester, M.A. Lower, Zobeida Molina, Fred Smith and Robert True. Thanks to Leora and Lynda for their assistance.

Frank Dobos was the only multiple list finisher on Hillyer.

Lynda Armbruster wears a propeller beanie hat.

Ron Zappen is congratulated by Byron Prinzmetal and Sandy Burnside on the summit of Black Mountain #5 on October 4, 2004. Ron finished the HPS List for the fourth time on this outing. He is the 14th person to finish the HPS List four times.

Edith Liu Introduces Cousin to Peakbagging in the USA

My cousin, Ursula Gündera from Unterhaching in Germany is an avid climber and has reached many high mountain tops all over the world, 16 of them were over 18,000 feet.

She visited me on two occasions during the last three years and we bagged 25 HPS peaks together. The 25+ include snow shoe hikes to San Jacinto, Baldy, Bighorn, Jean, and her second ascend to San Jacinto was a pathfinder. On the most recent visit Ursula and her husband loved the Colby Canyon route to Strawberry, enjoyed Queen and Villager desert peaks, and Mount Baldy was a special "treat" as we struggled with howling winds and white-outs to the summit.

Compass in Hand in the Electronic Age

By Mark S. Allen

Meeting at Griffith Park on October 9, the Navigation/Workshop Clinic headed out in search of the fundamentals of compass navigation. Our leader, Diane Dunbar taught the art of "Staying Found" accompanied by a staff of instructors. Interestingly, the class was made up of hikers improving their skills as well as leaders like myself studying for a higher classification.

Recent Forest Service closure of the San Gabriel Mountains made necessary a transfer to Griffith Park from the traditional Mt. Lowe course. There, while hiking the historic Griffith Park trails, we used compass navigation in lieu of GPS gadgetry.

Our hike began at the location of the weekly repeating hikes. We left the merry-go-round at 8:15am. After a short one-on one proficiency quiz, we were matched with our instructors. From there we progressed up the road toward Five Points. There were stops along the way for compass instruction and map orientation. We crossed the range and had lunch at Dante's View. During the day, the importance of peak bagging gave way to improving compass navigation skills. Admittedly, there was a glance now and then toward the peaks from over the map. But the proficiency gained by this class will forever guide us toward the peaks of the future.
