Patty Rambert Remembered

Over thirty participants hiked to the summit of Mt. Harwood on June 17, 2006 to bid farewell to Patty Rambert, who had died in a climbing accident on May 31, 2006.

Pictured below is the group on the summit listening to a poem by Tom Hill, and some special pictures and personal items about Patty.

Letter From the Chair
By Winnette Butler

Everyone is welcome to attend the HPS Annual Business Meeting to be held at the Eaton Canyon Nature Center, located at 1750 N. Altadena Drive, Pasadena. This is the meeting where nominations are finalized for next year’s Management Committee, proposals are presented for Bylaw changes, peak additions and changes and any other matters requiring a vote by members are discussed and finalized. At this time, decisions are made whether proposals should be placed on the annual ballot. The Annual Business Meeting will follow the monthly Management Committee Meeting. Refreshments will be provided by the Committee.

Active members have the right to submit names for consideration by the Nominating Committee, the right to nominate candidates by petition and the right to submit petitions for proposals to be placed on the ballot. Ballot proposals may be submitted to the Management Committee by a petition signed by at least twenty active Section members.

If you are attending the Business Meeting only, plan to arrive by 7:00 pm. The Management Committee meets half an hour earlier. Go north from the 210 Freeway on Altadena Drive for approximately one and a half miles. Enter the Nature Center parking area on your right shortly after crossing New York Drive.

Also, please come and join the Hundred Peaks Section for a great weekend of partying and peak bagging at Fall Festival in the Southern Sierra/Ridgecrest/Walker Pass area October 6th to 9th.

Join us for one day or as many days as you like. Hikes are already scheduled to over a dozen DPS, HPS and SPS peaks ranging from easy to very strenuous, along with a local volunteer/historian walk through the Siebert Cabin Complex and Mine in the Indian Wells Valley. LTC will be joining us with a very interesting traverse of the whole ridge and all five fingers to Five Fingers (Aquila Peak).

Festivities will be centered in the Powers Well area in Indian Wells Valley near the Owens Peak trailhead off Highway 395. Saturday night will include a campfire, games, happy hour and potluck dinner. SPS claims they have the World’s Best Happy Hours and DPS claims they have the World’s Best Potluck Dinners. Let’s throw out a challenge and see if they can live up to their reputation. Prizes for the best happy hour and potluck items. We all know that HPS has the World’s Best Hikers, right?? Campgrounds, primitive camping and local motels are available nearby.

Contact HPS Chair for information or directions: winnetteb@earthlink.net. Contact HPS leaders for individual hike information. Hikes are listed in the Advance Schedule of HPS Activities in The Lookout, and the most up-to-date information is always available on the HPS website.

Hope to see you at both the Annual Meeting and the Fall Festival.

Sandy Burnside, center with hiking pole, finished the List for the third time on June 25, 2006 on Pinyon Ridge. She is the 25th person to accomplish this feat. Congratulations, Sandy!

If you are climbing any of the above peaks, please consider bringing a new register can and book. If you discover a peak which needs a new register can, please let me know by mail addressed to Jim Adler, 836 Alandale Ave., Los Angeles, CA 90036-4625, or telephone at (323) 931-6844 or e-mail at jimadler@mindspring.com. Also, please advise if you have replaced any of the missing or deficient registers or discover that any of the above reports are erroneous or out of date. (Since register books and pencils are so easy to carry all the time, peaks where only books or pencils are needed are not listed.)

ENVIRONMENTAL SOLUTIONS AT THE EARTH CARE FAIR

What Can I Do about our environmental future? Where can I connect with people who want to create positive change? Where do I find greener resources locally? And how do I tell what's "greener" anyhow?

Come to the Earth Care Fair, Sunday October 8 in Westchester, and find out. Earth Care goes beyond saving the birds of Ballona Wetlands and cleaning the waters of Santa Monica Bay. Earth Care also takes place right here in the city - in our pantries and closets, our garages and freeways, our offices and stores - our daily urban choices. The Earth Care Fair will embrace a wide range of environmental issues: Greener vehicles, greener homes, organic gardening, renewable power, wildlife conservation, greenhouse gas issues, interfaith environmental efforts, and much more. Exhibits will feature local resources and local solutions. There will be entertainment and fun for adults and children - environmentally-minded people of all ages. Pets are welcome too, as Reverend Peter Rood of Holy Nativity Parish will offer a Blessing of the Animals.

Local author Joanne Poyourow will be the keynote speaker. Poyourow's novel, Legacy: A Story of Hope for a Time of Environmental Crisis, offers a positive vision for Los Angeles' future, and celebrates the power of grassroots action to create a better world for future generations.

The Fair will be held Sunday October 8, 2:30 to 5:00 p.m. on the front lawn of Holy Nativity Church, Dunbar at 33rd St. (6700 West 33rd Street), Westchester. Attendance is free.

Read more about the Fair at www.legacyla.net/EarthCareFair.htm. The Earth Care Fair is co-sponsored by the Environmental Change-Makers and the parish of Holy Nativity Episcopal Church. The Environmental Change-Makers are a circle of local environmental and Sustainability activists. They meet in Westchester on the fourth Thursday of each month for speakers, discussion, and movies about Sustainability, community-building, and positive environmental successes. More information is online at www.legacyLA.net/LA.htm

By Karen Leverich

Sep 2 Sat Hundred Peaks
New Outing, first time published
O: List Finish on Morris Peak (7215'): Joint fantastical never-to-be-repeated HPS List finish celebration in the Southern Sierras, near Walker Pass, with Lilly and Vati! Expect good companions and great scenery on this moderate hike as Lilly teams with Vati and the rest of us to visit their long-awaited field of dreams, 9 miles round trip, 2000' gain, via Pacific Crest Trail and easy summit excursion. Call or email Tom Hill for trip and celebration details near the time of the hike. Leader: TOM HILL Co-Leader: LILLY FUKUI Assistant Leaders: WINNETTE BUTLER, SUZY HERMANN, KAREN & WOLF LEVERICH, LARRY PIRRONE, PAMELA ROWE, GARY SCHENK, BOBCAT THOMPSON, GEORGE WYSUP

Sep 2 Sat Hundred Peaks
O: Sewart Mountain (6841'), Snowy Peak (6532'), Black Mountain #2 (6202'), McDonald Peak (6070'), Alamo Mountain (7360'): Hike these 5 peaks near Gorman. The entire hike will be 13 miles round trip with 4800' of gain. Could be very brushy. Fairly strenuous. Brisk pace. Bring water, lug soles, lunch, and hat. Send email to Leaders: PETER DOGGETT, IGNACIA DOGGETT

Sep 3 Sun Hundred Peaks
O: Sawtooth Peak (5200'), Burnt Peak (5788'), Littre Mountain (5760'): Clean out this area with one nice day of brisk hiking. The entire hike will be 10 miles round trip with 2500' of gain. Some steep firebreaks on first peak, the rest is easy! Bring water, lug soles, lunch, and hat. Send email to Leaders: PETER DOGGETT, IGNACIA DOGGETT

Sep 6 Wed Local Hikes, Hundred Peaks
O: Bare Mountain (6388'): 6 miles round trip, 1800' gain from Pinyon Flats, 800' gain on return. Meet 9 AM La Canada rideshare point with water, lunch, good footwear, suitable clothing. Leaders: GARY BICKEL, DORIS DUVAL

Sep 6 Wed Hundred Peaks
New Outing, first time published
O: Buck Point (6433'), San Sevaine (5240'): Burned over in the fire of three years ago, see how the area is recovering. Each peak is simple (Buck Point is 1.5 miles round trip, 400' gain, formerly brushy San Sevaine is 2.5 miles round trip, 500' gain), but the road could be quite a challenge. Your high clearance 4WD SUV is especially welcome on this one! If the road isn't opened this season, look for a (longer) hike to these peaks sometime in November. Email or SASE early to Karen. Co-Leaders: KAREN & WOLF LEVERICH, TOM HILL

Sep 9 Sat Hundred Peaks
New Outing, first time published
O: Mount San Antonio (10,064'), Mount Harwood (9552'), Thunder Mountain (8587'), Telegraph Peak (8985') & Timber Mountain (8303'): Hike the Baldy Grand Tour. We'll start at Manker Flat and finish at the Icehouse Canyon Parking lot. The entire hike is about 18 miles with 6200' of gain. This very strenuous hike should take about 10 hours. Bring water, lug soles, windbreak & hat. Contact leaders for starting time. Leaders: PETER & IGNACIA DOGGETT

Sep 9 Sat Hundred Peaks
Rescheduled from May 21
O: Pallet Mountain (7660'), Goodykoontz Peak (7558') from the north: Here's an opportunity to experience the remote portion of the Burke Trail as we ascend from Devils Punchbowl to newly listed Goodykoontz Peak from the north, strenuous 16 miles round trip, 4700' gain (less if we can receive permission to pass through the Lewis Ranch), mostly on trail. This approach visits picturesque countrysides seldom viewed by ordinary hikers. Send sase or esase with experience and conditioning to Leader: TOM HILL Co-Leaders: GEORGE WYSUP, LAURA JOSEPH, MARLEN MERTZ, JOE YOUNG

Sep 10 Sun Hundred Peaks
New Outing, first time published
O: Mount Hillyer (6200'), Pacifico Mountain (7124') & Mount Wilson (5710'): Visit these three nice mountains in the Angeles National Forest. The entire hike will be 5.5 miles round trip with 2300' of gain. Mount Wilson is a drive up. Meet 9 AM La
Canada rideshare point. Bring water, lug soles, hat & lunch. Leaders: PETER DOGGETT, IGNACIA DOGGETT, ALICE GOLDMAN

Sep 12 Tue Hundred Peaks

Annual Business/Management Meeting: All are welcome to attend our annual business meeting, where nominations are finalized for next year’s Management Committee. In addition, proposals for Bylaw changes, peak additions and deletions and other matters on which members will vote are discussed and votes are taken on whether to put them on the ballot. The business meeting follows the monthly Management Committee meeting. Refreshments provided by the committee. 6:30 PM management meeting; 7 PM business meeting. Eaton Canyon Nature Center (1750 N Altadena Dr in Pasadena; N from I-210 on Altadena Dr 1 1/2 miles, enter parking area on right shortly after crossing New York Drive.)

Sep 13 Wed Local Hikes, Hundred Peaks
O: Barley Flats (5500’) from Alder Creek: Hike this drive up by a beautiful alternative route. 8 miles round trip, 2100’ gain. Bring water, lunch, sturdy boots. Meet 9 AM La Canada rideshare point. Leaders: JOE YOUNG, BOBCAT THOMPSON

Sep 13 Wed Hundred Peaks
New Outing, first time published
O: Mount Baden-Powell (9399’), Mount Burnham (8997’): Two lovely peaks on the Pacific Crest Trail near Vincent Gap. 10 miles round trip and 3600’ gain. After Burnham some may wish to join an optional extension to Throop Peak, adding 2.5 miles round trip and 1000’ gain to the trip. E-mail or SASE to Karen for meeting time and place. Leaders: KAREN LEVERICH, TOM HILL

Sep 15 Fri Hundred Peaks
New Outing, first time published
I: Birch Mountain (7826’), Cedar Mountain (8324’), Wilshire Peak (8680’), Wilshire Mountain (8832’), Little San Gorgonio Peak (9133’): 15 miles, 6200’ gain (perhaps less) over occasionally rough, steep, and loose terrain suitable only for agile, well conditioned, and determined hikers. Mars Bonfire Completes the List 11 Times on Dobbs!!!

By Kathy Cheever

Drum roll please! Mars Bonfire has completed the List an incredible 11 times!!!

When: July 3, 2006
Where: Dobbs Peak

In June or so, Mars and I realized we were on the verge of List finishes—his 11th and, yes, it was also my 3rd List finish! We looked over each others peak List and, low and behold, we had a couple of common peaks we both needed. A few factors were considered: 1) finish before Buck Point and San Sevien possibly being unsuspended; 2) finish before possible fire closures; 3) finish before we went on vacation; and 4) finish on a "good peak". With 'finish' dancing hot in our head, and only a few weeks until vacation, it was clear we better get moving fast!!

Now highly motivated, we plotted a triptik of peak attack and tally-ho—we were off!!! Over to Los Padres—grab a peak. Down the I-15—grab another peak. Here a peak, there a peak, everywhere a peak. One by one we bagged them, crossing them off our list. We hiked in the hot, sweaty, thunder- and lightning-threatened weather. With each trip miraculously the heat was endured, the raindrops were dodged, and the lightning flashed on the 'other side' of the peak List. Before we knew it, Dobbs was in sight!

The weekend before while hiking Andersen and Shields we saw thunderheads growing larger and larger as the day went by. In the end we managed to trail along behind the rain and hail and realized that it would be smart to get up really early to do Jepson (I needed it first in order to finish on Dobbs) and Dobbs. Up early we were, leaving the South Fork trailhead about 6:00am, walked up and over to Jepson, then down to Dobbs sometime in early afternoon. Storm clouds threatened, but held; and yes, an eagle actually did soar over head in commemoration of this special event!

Mars, you finished the List 11 times—you extreme dude!!! You have been and remain an inspiration for all of us!!!! If you consider our list has had ~275 peaks per list in the course of your quests that makes 3,025 peaks bagged! Whoa!!! Yet each one retains its attraction and beauty to you as if hiking them for the very first time, exhibiting the portrait of 'peak passion' as you carry on to take the HPS world in a love embrace!!!! Congratulations Mars!!!!!!! No doubt more List finishes loom in the not too distant future!

Hike on! And, always, be safe!!!

Mars Bonfire on Dobbs Peak!

Tahquitz & Lily Rock
July 16, 2006
Wynne Benti

Despite intense heat and electrical storm warnings from NOAA, and the massive Sawtooth-Millard fires over in Yucca Valley, on Saturday July 15, I joined Ted Lubeshhoff and Wayne Vollaire’s hike of Sam Fink Peak, a car-shuttle from Humber Park to the Palm Springs Tram. With only 39 or so peaks to go, I had great plans of spending a few days in the backcountry to trim down my Desert Divide section, but intense heat put a damper on those plans. I carried an oversized daypack, borrowed from a friend, with three quarts of water, three day’s worth of food, a bivy sack, etc., while preventing any “easy” progress north. At the slabs, the ducks turned left (west) down a shallow gully along the south side of the slabby boulders. Most of the vertical drop between the two peaks occurred in this shallow, yet steep, gully. With only a map, the route description and no altimeter, I’m guessing about 400-450 feet. The route then angled right (north) again, through a tight spot between an oak and a boulder. I slid through on the ground, pulling my pack behind me. The route continued on the other side marked by a friendly duck, then meandered through boulders, oaks and pines to the saddle south of Lily. There wasn’t any major clambering over boulders, so I avoided any 3rd-4th class rock warned about in the HPS trip description. At the start of the short third class section, on Lily Rock, I left my pack hanging on a tree limb, and scrambled to the summit where the register, bolted to the rock, dangled freely in thin air.

I returned to the Ernie Maxwell Scenic Trail via the steep, rugged gully (HPS Guide Route 1) just off the Lily saddle and was back at my car in Humber Park by 11:30am in time to see the Paramedics, SAR, Idyllwild Fire Dept. and Sheriff out on a call. According to my car’s outside temp gauge it was 91 degrees. The hottest temp on the way home to Bishop was 115 between Hwy. 58 and Atolia. It was nice to get home.

Sam Fink Peak (7339’)
July 9, 2006
Leaders: Joe Young & Bobcat Thompson
By Joe Young

Peter Doggett, Ignacia Doggett, and Larry Campbell joined the leaders on this mid summer ascent of Sam Fink Peak. The weather was pleasant and bugs minimal.

The group started the hike from Humber Park at approximately 8:00 AM and returned to the cars at approximately 3:00 PM. We maintained a “brisk” pace all day.

Once in Caramba Camp, the group traversed a log at the south end of the campground and headed straight up, contouring only slightly to the east (left). We soon found a few ducks and followed them a ways. While this route is OK, nevertheless we should have stayed even closer to the base of the rocky outcroppings before reaching the open field near the saddle west of the peak. This is the only really challenging part of an outing to Sam Fink Peak.

Those of us who were honored to have hiked with Sam Fink in his younger days feel that he would definitely approve of this peak being on the List. From its summit one can see most of the route of the Sam Fink Trail which runs from Red Tahquitz over South(Well) Peak and on to Antsell Rock.

**Kratka/Waterman Rendezvous**

**Saturday July 22, 2006**

**By Tom Hill**

I was quite surprised to learn upon returning to L.A. that downtown reached 101°F today, since the conditions on Kratka/Waterman were so pleasant (mid-80s and below throughout, thanks partly to sufficient shade and cloud cover).

Our initial group of 7 warmed up on 450' of easy gain to reach the summit of Akawie just before 8am, then increased to 11 after we moved over to the east exit of Buckhorn Campground. Leaders Tom Hill, Pat Arredondo and Don Cwik were joined by Don Croley, Laura Stockton, Mari Sakai, Mark Allen, Joe Young, Bob Thompson, Jim Fleming, and Mike Baldwin for this little local adventure.

From the Buckhorn outlet road we hiked SE on the "jeep road" to a nearby saddle... the road is now a small gulch all the way to the saddle. A quick ascent of 840' from the saddle brought us first to "West Kratka" bumplet then to main Kratka, a steep ascent through lots of pine needles via the West Ridge route. No register can was discovered here, nor on Akawie or Waterman either for that matter. (I have informed Register Box of this status).

We returned to the Kratka-Waterman saddle around 10:25am, then proceeded another 640' gain uphill past the abandoned out-building to meet the Waterman Trail and what we expected would be the hiking hordes going to the Rendezvous. Rather sparse though!! In fact I counted only 36 on the summit during the party portion, with a handful of late arrivals putting the total group size just over 40.

Lugging a bottle of champagne to Waterman on "spec" based on cryptic phrasing from Karen turned out to be well worth the effort, since Dave Comerzan and company completed their Three Points version with ease. Yes, it was Dave, celebrating his 2x List Finish! A few rounds of toast using 2 bottles of Korbel memorialized this nice event.

Meanwhile, the clouds that had given shade and kept the temperatures reasonable began to bellow some menacing rumbles to the east and north of our area, so our group participated in the summit exodus just after 1pm, arriving back safely and dry. Thanks to everyone for this delightful day in the mountains, a fortunate escape from the heat!

**Goodykoontz Peak**

**Aug 2, 2006**

**A Private Hike**

**By Wynne Bentz**

I was in LA and decided to do this peak via HPS Route 1 from Angeles Crest Highway. Arriving at the large parking area, 0.7 miles from the shed as described, access to the entire area was blocked off by huge logs. I parked and walked over to a sign posted along the east side of the parking area. The sign noted the area closed for the endangered Mountain yellow-legged frog, warning of a $5,000 fine and possible incarceration for violators. I drove back to Buckhorn Campground and followed the well-signed paved road through the campground to the Burkhart Trail and parked. I walked the beautiful trail through sugar pine, Jeffrey pine and incense cedar down to Cooper Canyon arriving at the Burkhart Trail—Rattlesnake Trail junction on the other side of Little Rock Creek (the second creek crossing) in approximately 40 minutes.

Turning left on the Burkhart Trail I walked approximately 0.2 miles (if you reach mile post marker #2 on the trail, you've gone too far) and began climbing up the steep sidehill, heading NE to point 6709, then E following the ridge to the summit of Goodykoontz Peak. On the last steep part of the ridge with every step bringing me closer to the blue sky, I was reminded of the last hike I led with Frank, up Big Iron, many many years ago. I remembered what a wonderful, kind person he was, his great sense of humor and his ability to make everyone feel welcomed on a hike—truly the
quintessential leader. In the summit register, someone had left a fresh copy of *The Lookout* (perhaps Joe Young who had done the peak a few weeks prior with Bobcat and Dave Comerzan) [editor's note: Nope. Somebody else left the copy there.] with a front page article about Frank's memorial hike. I spoke with Diane Dunbar when I got back to Bishop who told me about the memorial hike and how Frank's ashes were placed on the summit.

On the return I walked the ridge back to 6709 then walked it all the way out (SE) back to the trail. I stopped at both creeks to take five, drop some rocks from inside my boots and dunk my head completely in the water. Just about 100 feet shy of the trailhead parking area, I ran into hiker, Shirley, with her daughter, Nika, and their dog. I gave her my map (created with ATM Pro V7 software by IGAGE) so they could find their way down to the creek. They were the only people I saw on the trail. It was a great hike up a fine addition to the HPS List.

**Dorothy Danziger Makes History!**

*By Edith Liu*

Dorothy is the first woman ever to complete the HPS List five-times. What a feat! And she did it on Antsell Rock when she signed the register on June 28, 2006. She seems to pick challenging ones for her List finishes. The first one was in 1998 on San Gorgonio, the second celebration took place on Rosa Point in 2001, Lily Rock followed in 2003. Thirteen months later in 2004, her 4th happened on the hottest day of that year on Haul Peak!

The statistics are quite interesting for such an accomplishment. The approximate mileage it takes to conquer all the peaks five times is 7,300 miles. This is equal to more than 1/4 around the globe. The total elevation gain according to Dorothy's entries was over 2 million feet. To get a perspective I came up with over 400 ascents to the summit of San Gorgonio.

Dorothy, we all want to congratulate you. See you on the trail for more peak bagging.

**Pacifico from Mill Creek Saddle**

*May 20, 2006*  
**Leader:** Suzy Herman, **Assistant:** Karen Leverich

Weather this spring has been ... nutty. Almost every outing I've been involved with has had to be postponed. We had snow on the ground in Pine Mountain Club through most of March. Suzy worried that snow on the north face of Pacifico would delay her "O" provisional. Not so. We seem to have jumped straight from winter to summer. Snow? A fond memory. But Suzy's May 20th lead of Pacifico managed to land on one of our too few lovely spring days.

Even so, the outing wasn't exactly as planned. I wasn't supposed to be there, or at least, I wasn't supposed to be assisting. Wolf was to be Suzy's evaluator. But the huge kidney stone that was discovered last year, that had resisted all attempts to remove it, was once again being a problem. (Aside: on June 1st, the Clark Urological Center of UCLA took a run at the thing and, knock on wood, have at last succeeded in removing it.)

I've always driven up Pacifico, even camping there for several days back in the early 1980s, when Wolf was a graduate student. Hiking to it via the Pacific Crest Trail was a treat. Not finding cars on top after hiking was also nice. (The road has been closed since the storms of early 2005 -- a massive slide near Alder Saddle has made that portion of the road unsafe. Though I believe the road "goes" from Mill Creek Saddle to the summit of Pacifico, so who knows?, maybe they'll open that up someday soon.)

Along the PCT, which wraps around the north side of the peak in lovely forest, we bumped into those ambitious souls, the PCT thru-hikers. An amazingly diverse group! Some were heavily loaded, others ultra light. Some were having fun, and others, well, I'll be surprised if the continue past the San Gabriels. But that will be an adventure for a different year, I expect.

We day hikers admired the flowers (fantastic), Suzy's leadership (flawless), the views (far reaching). And how nice to have a bathroom, picnic tables, and trash cans on the summit! If only we'd been able to find the well-hidden register... Maybe next time!
Frazier Mountain  
A Private Outing  
May 31, 2006  
By Joe Young, Diane Dunbar and Bobcat Thompson

Let's bag a drive-up via a non-drive-up route! What a concept! How about Frazier Mountain? None of the three of us had ever climbed Frazier by any other means than the drive-up. So we researched and came up with a route that looked promising on paper. Joe found a route description on the internet written by a mountain biker that looked interesting. The biker's route started at Chuchupate and followed the main route to the summit, but descended via a combinations of dirt roads and use trails to East End Drive in Frazier Park. So we reversed it and planned to find East End Drive and ascend the peak from the northeast. It worked, though not as the mountain biker described his route.

Diane drove us to Frazier Park, and we turned left at the first flashing red light entering the town, and stopped by the Post Office to find out how to get to East End Drive. Bobcat, who retired from the U. S. Postal Service in 2002, enjoyed chatting with the postmaster, who found an employee who knew a lot about hiking in the area.

Now with instructions we drove east on Park Drive which turns into East End Drive, and we followed it south to its end at a locked gate and a newly built house. We asked the homeowner for permission to park at her home, and she said OK. At roughly 9 AM we started hiking past the locked gate (we think the elevation is about 5100') for about a mile where we found a valve and pipe owned by the local water purveyor to tap water from a spring. The elevation here is, we think, 5670.' A prominent trail goes up a gully at this point. We followed this path up the gully. The path becomes indistinct at times but never disappears completely until almost at the top. The gully is rocky in places, brushy in others, and generally shaded. We plugged on until the gully became less steep at about 7400.' We headed southwest at this point and caught an old abandoned dirt road which we followed a short ways westerly until we met USFS road 8N24. We left a couple of ducks here. We followed 8N24 to the west, observed a potential short cut, then headed south, then westerly again. We found a ORV marker along the road which indicated the start of road 8N42. We started up this road, but soon spotted the electronic towers of the "pristine" summit of Frazier Mountain and bolted cross country to the summit. We lunched in the old, now abandoned, lookout. We all set our altimeters to 8000', the elevation at the summit. We based our elevations of the spring and the locked gate on this calibration.

To add a little variation to the return we cut cross country on a ridge heading northerly from the summit, and once we were hiking again on 8N24, took the short cut we had spotted earlier. We found our ducks near the main gully we had ascended earlier and proceeded cross country into the gully, and then retraced our steps back to the locked gate.

With a few ups and downs on 8N24 we figured the gain for the day was about 3500', and the round trip mileage was about 12 miles. The weather this day was sunny and not too warm. Diane's topographic map was the 1995 revision of the Frazier Mountain topo.

There is not sufficient parking space at the house at the locked gate for a large group to park, but you could probably park further down East End Drive or even at the town park in Frazier Park if you wish to hike the peak our way. The owner and her family were quite friendly folks, but I'm not sure how they would react to a large crowd.

This is the 60th anniversary of "The Famous Handshake," when Weldon Heald, originator of the Hundred Peaks game, ascended Grouse Mountain in June 1946 and recorded his 100th ascent to a named summit over 5,000' elevation in Southern California. Jack Bascom hiked with Heald that day.

On June 24, 2006, Tom Hill, George Wysup, Joe Young and others explored a ridge from Pine Mountain Club to Grouse. They used information provided by Tom Connery who had explored this ridge earlier. The hike went smoothly as the ridge was fairly steep but not brushy, and the weather was pleasant.

The twelve hikers paired off on the summit of Grouse in order to recreate the famous handshake for photographic purposes.

Afterwards, the group went over to Sawmill, then returned down the same ridge they had ascended.
Abbye Stockton

“Pudge,” as she was known among her weight-lifting and fellow physical fitness aficionados, passed away at age 88 on June 26th from complications arising from Alzheimer’s Disease. She was the widow of Les Stockton, who died in April 2004.

The Stocktons courted on the sands of Santa Monica in the late 1930s, where they were early frequenters of a small stretch of beach adjacent to the Santa Monica Pier that became famous as “Muscle Beach.” After World War II, like their comrades Vic Tanny, Jack LaLanne, and Joe Gold, the Stocktons advanced the concepts of “physical culture” through the establishment of their own gymnasiums.

Pudge’s role, in particular, was pivotal in gaining approval for the idea that women could maintain their femininity while developing physical strength and becoming good athletes. Besides being a perfect photographic example of this precept, Pudge also wrote an influential column in Strength and Health Magazine—the most popular fitness periodical in the world at the time.

In recognition of her many contributions, Abbye Stockton was given the Steve Reeves International Society Pioneer Award in 1998, to be followed two years later by her election to the International Federation of Bodybuilding and Fitness Hall of Fame.

Although it was Les who was more active in the Sierra Club (popularly dubbed “The Red Baron” due to his flamboyant hiking attire), Abbye was there alongside on many of the hikes and events conducted by her husband. On June 6, 1972, she climbed her One Hundredth Peak to obtain Emblem Status in the Hundred Peaks Section. The Stockton’s daughter, Laura, moved back to Santa Monica to care for her mother, and continues in the Stockton tradition by being an active member of the HPS.—Bob Cates, Angeles Chapter History Committee Chair

Charles Buford Jones, or Charlie to everyone who knew him, passed away on January 18, 2006, after a series of strokes. He had been active in the Angeles Chapter since the 1960s, particularly with the Hundred Peaks Section and the Trails Committee.

Born in Nashville, Tennessee, he spent many of his formative years in the Northeast, where in 1940 he took a Bachelor's Degree in Mechanical Engineering (with honors) from the Massachusetts Institute of Technology. After serving in WWII as an engineer, he returned to MIT to collect his Masters Degree in 1947, also in mechanical engineering.

Charles moved to California in the early 1950s, where he performed market research for Douglas Aircraft Corporation. In 1956 he became employed by the Stanford Research Institute as an Industrial Economist, where he worked until transferring to Economics Research Associates in 1961. As a successful investor, Charles turned to investment counseling in the early 1970s, principally managing his own extensive portfolio. In 1974, he returned to the work force, gaining both a real estate license and contractor's license, enabling him to build and sell several spec houses.

Charles married Vivian Janice James in 1954, and the couple had four children—Bruce, Laura, Emily and Sarah. By the late 1960s, he had become heavily involved with the Angeles Chapter of the Sierra Club—not just Charles alone, but all the children as well. Charlie and his kids became a fixture on Hundred Peaks Section (HPS) outings, with Bruce climbing over 200 peaks by the age of 11 and Laura by the age of 10. Emily obtained 100 peaks by the time that she was 8 ½ years old.

Throughout most of the 1970s, Charlie was a notable leader in the HPS. As Vice-Chair, he was responsible for organizing and recruiting for the section’s outings program, a task he undertook with the utmost zeal and with innovative organizational skills. Charlie brought a large calendar to the monthly meetings and arm-twisted leaders to fill up every weekend of the forthcoming schedule, making sure they led a wide variety of peaks. Under his guidance, the number of outings grew at a phenomenal rate, helping make the HPS the most active climbing section in the chapter, a legacy that continues to this day.

In the 1980s he became very active as a volunteer organizing and performing trail work, in which role he chaired the San Gabriel Mountains sub-committee of the Angeles Chapter’s Trails Committee from 1984 until 2004. In addition, Charlie was one of the founders of the San Gabriel Mountain Trail Builders and inspired volunteer work with members of the Boy Scouts, inner city kids, and the Chinese-American Outdoor Club among other groups. He also performed volunteer work as a trail builder for the U.S. Forest Service and was recognized by the United States Department of Agriculture in 1993 for having contributed more than 1000 hours of his time in volunteer service. He continued to perform volunteer work up until two years before his death.

The trails that he worked on included those on Mount Hawkins, Mount Islip, and Mount Wilson, and in Bear Canyon and Millard Canyon. His most recent trail work was in support of the Los Angeles Unified School District’s Clear Creek Outdoor Education Center. In 2002, President Bush called on all Americans to dedicate at least 4000 hours of volunteer work within their lifetimes. In the fall of 2003, Charlie received the President’s Call to Service Award for his volunteer work.

In recognition of his varied and long-term activities, Charles Jones was awarded the HPS John Backus Leadership Award (1977), an Angeles Chapter Outings Service Award (1985) and the Angeles Chapter Special Service Award (1989).

Charlie always gave 100 percent to any task he undertook. He managed to convey this exceptional work ethic to those around him, be it fellow peak-baggers, trail workers, professional contacts, and especially to his children—all of whom completed college. Bruce is a computer programmer and systems engineer; Laura works in applied mathematics, focusing on ecological problems, primarily at Cornell University; Emily is an electrical engineer employed by the Navy; and Sarah is an accountant and auditor for the Disney Corporation. Charlie is also survived by another daughter, Carol Duemler Jones, the issue of his first marriage, and by three grandchildren.—Bob Cates, Angeles Chapter History Committee Chair

Charlie Jones worked for years on building a trail on the Hawkins Ridge from Middle Hawkins to South Hawkins.

Wilderness First Aid Classes Available

Earn Your Leadership Credentials Or Keep Them Up To Date!

An introductory class in Wilderness First Aid will be conducted on Saturday, November 4, 2006 at Harwood Lodge. A refresher class in Wilderness First Aid will be held on Sunday, November 5, 2006, also at Harwood Lodge.

Topics covered in both classes include scene survey, level of consciousness, patient assessment, controlling bleeding, wounds and burns, head-to-toe examination, vital signs, medical history, fractures and dislocations, and shock. The introductory class also covers strains and sprains, splinting skills, and roller/triangular bandage skills. The refresher course has two realistic wilderness accident scenarios.

Wilderness First Aid Course is an independent educational non-profit closely affiliated with the Angeles Chapter.

Applications for these courses are available at http://wildernessfirstaidcourse.org/application.htm. To apply please print out the appropriate form, complete the form, and mail it with a check for $50 (WFAC) to Registrar. Wilderness First Aid Course, P. O. Box 3414, Fullerton, CA 92834. If applying for the introductory course, please include either your Sierra Club membership number and leader rating or a copy of your CPR course certification (regardless of when you took the CPR class). If applying for the refresher course, send proof of completion of a wilderness first aid course of at least 24 hours which you have completed within the last 8 years (unless you took the WFAC).
Hundred Peaks Section
Angeles Chapter
Management Committee Meeting Minutes

Date: Tuesday, May 9, 2006
Location: Winnette Butler's Home

Mcomm Members Present: Winnette Butler, Dave Comerzan, Jim Fleming, Wolf Leverich, Karen Isaacson Leverich
Mcomm Members Absent: Lynda Armbruster, Greg De Hoogh
Non-Mcomm Members Present: None

The meeting was called to order at 6:50 pm. Dave Comerzan submitted the minutes of the March 14, 2006 meeting for approval. m/s/p.

Committee Reports:
TREASURER: Sandy Burnside. Wolf Leverich submitted the Treasurer reports for March and April for approval (see attached). m/s/p.
MEMBERSHIP: Greg de Hoogh. The membership report was sent by email by Greg. Report was submitted for approval (see attached). m/s/p.
OUTREACH: Lynda Armbruster. The outreach report was sent by email by Lynda (see attached). It was not received in time for this meeting. Per her report, Lynda made a presentation at the OCSS Newcomer's meeting on Monday, May 8, to 45-50 participants. Wolf reported that there seemed to be a lot of interest in peak bagging by members of the last LTC training. Winnette report that she recently delivered a number of Fall Festival flyers and Lookouts to be distributed at an Earth Day event. Jim suggested we should be putting flyers about HPS events in stores like REI.

PROGRAMS/MERCHANDISE: Jim Fleming. Spring Fling: It was reported that this event was highly successful and enjoyed by all who attended. We are still collecting receipts, but it looks like the event broke even. There was some discussion on Spring Fling 2007. Wolf suggested that we consider rotating the site as people may be getting tired of hiking the same peaks. Joshua Tree in March of 2007 in combination with DPS was suggested. Fall Festival: Response has been good so far. Flyers have been made and are being distributed (see attached). The Keller Hut in Big Bear was suggested for a site for 2007. Jim will check on availability. Wolf will look into group campsites for this event. Awards Banquet: Several speakers were suggested for this event: Dave Myers (Wildlands Conservancy), John Robinson, Bob Cates. Jim will follow up on these suggestions.

OUTINGS: Karen Isaacson Leverich. Karen reported that the number of hikes in the next Activities Book are down, however, HPS hikes are up. Karen has determined how our hikes can be posted in the Southern Sierra and will follow up on this.

MOUNTAIN RECORDS: Wolf Leverich. Wolf reported that the HPS Outings Procedures are outdated with respect to leading M/E outings on all routes EXCEPT the standard routes for: Antsell Rock, Five Fingers, Lily Rock, Strawberry's West Ridge. Without an update to our outings procedures, HPS cannot be the primary sponsor on M/E outings using other routes. Wolf reported that Chapter Safety and the National Mountaineering Outings Committee were receptive to HPS updating its outings procedures, and Wolf will propose draft language at the next MComm meeting.

CONSERVATION: Mei Kwan. There was nothing reported on for conservation.
ANGELES CHAPTER: Joe Young. There was nothing reported on for Angeles Chapter business.
OLD BUSINESS: There was no report on quotes for List Completion Pin or Milestones for The Lookout. Winnette reported that she has completed notifying all necessary organizations of the changes in Management Committee.

NEW BUSINESS: Harwood Lodge: Harwood Lodge is soliciting for funds from members for repairs. It was suggested that we put this request in The Lookout. Old Time Hookup: Winnette reported that she received a request from National that a member who used to hike locally in the 60's wanted to know if some of the people he hiked with were still around. He is planning on being in the area soon. Winnette will put him in touch with Joe Young.

Future meetings and locations are:
July 11 – Newcombs
Sept 12 – Eaton Canyon
Nov 14 – Winnette’s
Dec 12 – Winnette’s

The meeting was adjourned at 8:40 pm.
Respectfully submitted: Dave Comerzan
**Sign-In Sheet & Acknowledgment of Outing Member Responsibility, Express Assumption of Risk, and Release of Liability**

I understand that during my participation in this Sierra Club Outing, I may be exposed to a variety of hazards and risks, foreseen or unforeseen, which are inherent in each Outing and cannot be eliminated without destroying the unique character of the Outing. These inherent risks include, but are not limited to, the dangers of serious personal injury, property damage, and death ("Injuries and Damages") from exposure to the hazards of travel and the Sierra Club has not tried to contradict or minimize my understanding of these risks. I know that Injuries and Damages can occur by natural causes or activities of other persons, animals, trip members, trip leaders and assistants or third parties, either as a result of negligence or because of other reasons. I understand that risks of such Injuries and Damages are involved in adventure travel such as Sierra Club Outings and I appreciate that I may have to exercise extra care for my own person and for others around me in the face of such hazards. I further understand that on this Outing there may not be rescue or medical facilities or expertise necessary to deal with the Injuries and Damages to which I may be exposed.

In consideration for my acceptance as a participant on this Outing, and the services and amenities to be provided by the Sierra Club in connection with the Outing, I confirm my understanding that:

- I have read any rules and conditions applicable to the Outing made available to me; I will pay any costs and fees for the Outing; and I acknowledge my participation is at the discretion of the leader.
- The Outing officially begins and ends at the location(s) designated by the Sierra Club. The Outing does not include carpooling, transportation, or transit to and from the Outing, and I am personally responsible for all risks associated with this travel. This does not apply to transportation provided by the Sierra Club during the Outing.
- If I decide to leave early and not to complete the Outing as planned, I assume all risks inherent in my decision to leave and waive all liability against the Sierra Club arising from that decision. Likewise, if the leader has concluded the Outing, and I decide to go forward without the leader, I assume all risks inherent in my decision to go forward and waive all liability against the Sierra Club arising from that decision.
- This Agreement is intended to be as broad and inclusive as is permitted by law. If any provision or any part of any provision of this Agreement is held to be invalid or legally unenforceable for any reason, the remainder of this Agreement shall not be affected thereby and shall remain valid and fully enforceable.
- To the fullest extent allowed by law, I agree to WAIVE, DISCHARGE CLAIMS, AND RELEASE FROM LIABILITY the Sierra Club, its officers, directors, employees, agents, and leaders from any and all liability on account of, or in any way resulting from Injuries and Damages, even if caused by negligence of the Sierra Club its officers, directors, employees, agents, and leaders, in any way connected with this Outing. I further agree to HOLD HARMLESS the Sierra Club, its officers, directors, employees, agents, and leaders from any claims, damages, Injuries or losses caused by my own negligence while a participant on the outing. I understand and intend that this assumption of risk and release is binding upon my heirs, executors, administrators and assigns, and includes any minors accompanying me on the Outing.
- I have read this document in its entirety and I freely and voluntarily assume all risks of such Injuries and Damages and notwithstanding such risks, I agree to participate in the Outing.
