Hundred Peaks Section Holds Annual Election

There are eight candidates running for HPS Management Committee. The candidates are Wayne Vollaire, Karen Leverich, Lynda Armbruster, Dave Comerzan, Wolf Leverich, Jim Fleming, Ingeborg Prochazka, and Greg de Hoogh.

There is one bylaw change proposed. This proposal would allow the HPS membership to modify, add or remove achievement awards (such as the Pathfinder Achievement) without having to change the bylaws themselves and without having to take such changes to the Chapter Executive Committee for approval.

There are also proposals to remove Palomar Mountain (6140'), Buck Point (6433'), and San Sevaine Lookout (5240+') from the List.

Candidate statements, arguments about the proposed bylaw change, and arguments about the proposal to remove each of those peaks from the List are included inside this issue of The Lookout. They will also be included with the election packages which will be mailed separately to all HPS members.

This is the first year where winning candidates are being elected to staggered terms. This election is the transition. The top four vote-getters will be elected to two-year terms. The next two vote-getters will serve one year terms. These six, plus Winnette Butler who will be Past Chair, will comprise the seven members of the HPS Management Committee for 2007. (In next year's election there will be three open positions.)

Your ballots and election materials will be mailed separately. Ballots must be returned by December 1, 2006 in order to be counted. If you have not received your ballot packages, or if your ballot packages do not contain one ballot for each HPS member in your household, please alert Doris Duval, Election Committee Chair. Contact Doris at 447 Mt. Washington Dr. LA, CA 90065. Her email address is duv14@sbcglobal.net.

Angeles Chapter Holds Election

The Angeles Chapter Executive Committee consists of sixteen representatives of the regional groups and nine members elected at large by the entire Chapter membership. At large members serve staggered two year terms. This year there are eight candidates for four open at large positions. These candidates are Darrell Clarke, Mike Sappingfield, Henry Schultz, Joel Levin, Joe Young, Kent Schwikis, John Fries, and Mary Morales.

The percentage turnout in Chapter elections has not been good. YOUR VOTE COUNTS! Ballots will be included with the November issue of the Southern Sierran.

Nov 4  Sat  WTC, Hundred Peaks
Rescheduled from October 1 due to fires
I: San Rafael Peak (6866'): Moderately strenuous 10 mile round trip, 2400' gain hike in the Sespe Wilderness (Los Padres National Forest) via trail and cross country route to San Rafael Peak. Apart from forest dominated by Jeffrey pines, pinyons and sagebrush, the area contains many fascinating geological formations - including Mutau Flat Rock, a sacred site to the Chumash Indians. Send email (preferred) or sase, with contact info and recent conditioning to Leader: KATHY RICH Assistant: JANE SIMPSON

Nov 4  Sat  Hundred Peaks, Palos Verdes-South Bay
I: Crafts Peak (8264'), Butler Peak (8535'), Greys Peak (7920') and Deep Creek Hot Springs (5' deep): 15th semi-annual Fall Deep Creek Hot Springs hike/soak/swim with a few more peaks. Moderately paced 13 miles with cross-country, 3000' gain. Bring lunch, water, rain gear, lugs (swim suit optional). Significant dirt road driving, but high clearance not required. Plan on spending full day - it's near Hesperia via Big Bear. We'll definitely be hiking back in the moonlight. Possibility of doing Delamar Mountain, depending on hiking speed - hot spring is priority. Rain cancels. Send email (preferable - bholchin@cox.net) or sase with conditioning and carpool info to Leader: BARRY HOLCHIN Co-leader: WAYNE VOLLAIRE

Nov 4  Sat  Hundred Peaks
O: Hildreth Peak (5065'), Old Man Mountain (5538'), Monte Arido (6010'): Hike all three of the peaks from the Potrero Seco Road. This will be a brisk-paced hike along mostly fire roads. We will hike 20 miles round trip with 6700' of gain. Bring water, lug soles, lunch, and hat. High clearance vehicles will be helpful. Send email to Leaders: PETER DOGGETT, IGNACIA DOGGETT

Nov 4  Sat  Hundred Peaks, Palos Verdes-South Bay
I: Exploratory trip to Valyermo Peaks 6621 and 5316: From South Fork Campground on the Antelope Valley side of the San Gabriels we explore prominent peaks so remote they are unnamed. For Peak 6621, strenuous 2 miles round trip, 2000' gain via an ascent that follows a steep ridgeline. For Peak 5316 afterward if time permits, moderate 2 miles round trip, 800' gain that features vistas of the tortured rockscapes of Devils Punchbowl. We will place registers on the summits. Optional Sat night carcamp that would fit well with the Mt Lewis exploratory hike on Sunday. Send sase or esase with recent conditioning and experience to Leader: TOM HILL Co-leader: ASHER WAXMAN

Nov 5   Sun   Hundred Peaks
O: Peak Mountain (5843'), McPherson Peak (5749'): Join this very easy hike to two Santa Barbara County peaks. The total hike will be about 1 mile round trip with 400' of gain. High clearance vehicles will be helpful. Send email to Leaders: PETER DOGGETT, IGNACIA DOGGETT

Nov 5   Sun   Hundred Peaks
I: Mount Lewis (8396') from the North: We revisit the steep cross-country ascent of Mt Lewis from the Antelope Valley side of the San Gabriel Mountains; strenuous 7 miles round trip, 3700' gain. A tough but adventurous trip for strong hikers. Send sase or esase with recent conditioning and experience to Leader: TOM HILL Co-Leaders: PAT ARREDONDO, LAURA JOSEPH, ASHER WAXMAN, GEORGE WYSUP

Nov 5   Sun   Hundred Peaks
I: Heald Peak (6901'): Postponed to November 17th. (See below).
Nov 5   Sun   Hundred Peaks
New Outing, first time published.
I: Hawes Peak (6751'): Rather than Heald (originally scheduled for this date), we'll do a different "starts with H, five letter peak" ... Hawes. 5 miles round trip, 1300' gain on trail and cross-country through pinon forest. Depending on hiker interest and energy, might include a few more peaks such as nearby Shay, Little Shay and/or Ingham. E-mail or SASE early to Karen. Leaders: KAREN LEVERICH, CHERYL GILL
Nov 6-7 Mon-Tue  Hundred Peaks
O: Hildreth Peak (5065'): Let's do a second moonlight hike to this peak which is much more interesting at night than at daytime. The distance is 14 miles round trip with 2500' gain going in and 2500' gain coming out. Email leaders for meeting time and place. Leaders: INGEBORG PROCHAZKA, DAVE COMERZAN

Nov 11 Sat  Sierra Peaks, Hundred Peaks
I: Owens Peak (6453'): Join us for our Third Annual Armistice Day outing. This year is a joint celebration of the 86th anniversary of the end of The War to End All Wars, and the 50th anniversary of the first SPS outing to Owens Peak. This will be a moderately paced, mostly cross-country loop hike on steep ridges, 7 miles round trip, 3200' gain. Phone or email leader the week prior to the trip for information. Snow cancels. Leader: GARY SCHENK Assistants: TOM HILL, LAURA JOSEPH, GEORGE WYSUP

Nov 11 Sat  WTC, Hundred Peaks
I: Bernard Peak (5430'), Little Berdoo Peak (5440'): Two lesser traveled HPS peaks in Joshua Tree National Park with views into the Coachella Valley. 7 miles round trip, 1800' gain, entirely cross county. AWD or 4WD vehicles preferred, due to sandy nature of road. Send email (preferred) or sase, with contact info & recent conditioning to Leader: ROBERT MYERS Co-Leaders: SUSAN RICHMOND, JANE SIMPSON

Nov 11 Sat  Wilderness Adventures, Hundred Peaks
New Outing, first time published
O: Winston Peak (7502'), Winston Ridge (7003'): This 6 mile round trip, 1100' gain loop will begin and end at Cloudburst Summit. Meet 8:30 AM La Canada rideshare point with water, lunch, good footwear, suitable clothing layers. Leaders: ROSEMARY CAMPBELL, SOUTHERN COURTNEY

Nov 11-12 Sat-Sun  Hundred Peaks, K-9
I: Scodie Mountain (7294'), Onyx Peak #2 (5244'), Heald Peak (6901'): Three strenuous hikes along Highway 178 involve some cross-country and a little dirt road driving. Well-behaved dogs OK. Scodie involves 7 miles round trip, 2300' gain; Onyx, 4 miles round trip, 2200' gain. Camp or motel in area Saturday PM. Sunday bag Heald (10 miles round trip, 3500' gain). Meet 7 AM at Sylmar rideshare on Saturday. Bring water, lunches, sturdy boots. Call or email leader for meeting time and place on Sunday. Bad weather cancels. Leader: JOE YOUNG Assistants: WYNNE BENTI, JULIE RUSH

Nov 12 Sun  Hundred Peaks
I: Skinner Peak (7120'): Moderate exploratory route in semi-desert terrain to this peak in the Southern Sierras, 8 miles round trip, 2300' gain. Some steep ridgelines; great scree slope descent. Significant dirt road driving. Consider staying over from the Owens Peak Saturday trip in the area. For details send sase or e-mail to Reservationist: GARY SCHENK Leader: TOM HILL Assistants: GEORGE WYSUP, LAURA JOSEPH

Nov 12 Sun  WTC, Hundred Peaks
I: Lost Horse Mountain (5313'), Ryan Mountain (5457'): We will visit Lost Horse Mine and learn about the history of these two peaks in Joshua Tree National Park. Lost Horse is 5 miles round trip, 900' gain. Ryan is 3 miles round trip, 1100' gain. Send email (preferred) or sase, with contact info & recent conditioning to Leader: ROBERT MYERS Co-Leaders: SUSAN RICHMOND, JANE SIMPSON

Nov 12 Sun  Hundred Peaks
O: Gobblers Knob (6955'), Circle Mountain (6875'): Climb these two bumps near Wrightwood. Circle should be an Explorer Peak for most. The entire hike will be about 5 miles round trip with 2000' gain. Meet 9 AM Pomona rideshare point. Bring water, lug soles, windbreaker & lunch. Leaders: PETER DOGGETT, IGNACIA DOGGETT, ALICE GOLDMAN

Nov 15 Wed  Lower Peaks
I: Red Rock Mountain (3991'): Join us for a hike of this geologically interesting Lower Peak near Castaic Lake. This hike is 8 miles and 1200' of gain. Contact leaders a few days before for meeting place and time. Leaders: DAVE COMERZAN, GEORGE WYSUP

Nov 15 Wed  Hundred Peaks
New Outing, first time published
O: Buck Point (6433'), San Sevaine (5240'+): Two modest (or not) peaks near Cajon Pass. Route will depend on access, but could be 20-some miles and 5000' of gain. (Hopefully a lot less!) High clearance vehicles recommended. E-mail or SASE to Karen for more information. Leaders: TOM HILL, KAREN & WOLF LEVERICH
Nov 17 Fri  
Hundred Peaks  
Rescheduled from November 5th  
I: Heald Peak (6901'): Karen addresses yet another orphan. 7 miles, 3400' gain over demanding terrain only for determined and conditioned hikers. Slow pace. High clearance 4WD advised. E-mail or SASE early to Karen. Leaders: KAREN & WOLF LEVERICH, MARS BONFIRE

Nov 18 Sat  
Hundred Peaks  
O: Chiloa to Horse Flats, Mt Hillyer (6200'): Moderate, 6 miles round trip, 1000' elevation gain. Visit Bandido Tiburcio Vasquez country. A beautiful hike thru magnificent stands of Jeffrey pine and interesting rock formations, with great views along the way. Meet 8 am La Canada rideshare point. Bring water, lug soles, 10 essentials. Rain cancels. Leader: CHRIS SPIEAK Co-Leader: LILLY FUKUI

Nov 18 Sat  
Hundred Peaks, Wilderness Adventures  
O: Brush Mountain (7040') and San Emigdio Mountain (7495'). Frazier Mountain (8013'): Moderately paced 8 mile, 1300' gain, hike near Mount Pinos. Meet 7:45 AM Sylmar rideshare point. Will do last peak as a drive-up. Bring 2 quarts water, lunch, lugsole boots, warm clothes, 10 essentials. Leader: TED LUBESKOFF Co-Leader: ANN PEDRESCHI

Nov 18 Sat  
Hundred Peaks  
I: Hawes Peak (6751'), Little Shay Mountain (6635'), Ingham Peak (6355'), Shay Mountain (6714'): Loop hike near Big Bear in somewhat challenging burn-out woodlands with patchy poodledog growth, moderately strenuous 10 miles round trip, 3200' gain. Lots of dirt road driving. Send sase or esase to Leader: TOM HILL Co-Leaders: GEORGE WYSUP, PAMELA ROWE

Nov 18-19 Sat-SunLower Peaks, Desert Peaks  
I: Careys Castle, Monument Mountain (4834'): Off-trail desert day hikes in Joshua Tree National Park. Saturday, adventurous 9 miles round trip, 1400' gain to visit remote and renowned Careys Castle. Primitive carcamp and kickass happy hour that evening. Sunday, 5 miles round trip, 1600' gain to attain the high point of the Hexie Mountains. 4WD helpful. Email/sase to Leader: WAYNE NORMAN Co-Leader: ERIK SIERING

Nov 18-19 Sat-SunHPS, WTC, DPS

Letter From the Chair
By Winnette Butler

It's been a great time to be in the HPS lately. We've had a run on emblems and list finishes with some marvelous parties. It never fails to amaze me how creative people can be and what they can stuff into a backpack and haul up a mountain to share at the summit. What can be better than ice cold sodas, chilled champagne, crispy-cold shrimp cocktails, cold chocolate liqueurs and a huge variety of wonderful munchies on a very hot day in August or September? And all that surrounded by many good friends and leaders — old and new. Keep an eye on that schedule. I've heard rumors that there are still a few huge parties to attend before the end of this year!

Watch those mailboxes! You'll be receiving two important pieces of mail soon. The ballot for this year's election will be mailed in early November. Please make sure you vote and mail your ballot in time to reach the Elections Committee by December 1st. You'll also be receiving an order form for tickets to our Annual Awards Banquet on January 20, 2007. We will have a speaker from Wildlands Conservancy — more details to come.

Hope to see you out on the trails soon. We have a wonderful variety of hikes scheduled over the next few months. Let's hope the fire season ends soon.

Leading Antsell Rock seemed like a good idea at the time, while relaxed in my family room. So I scheduled it and added Apache and Spitler just to kill the rest of the day. I wanted to make this M-rated trip with real M-rated leaders for a change, and I was able to convince Don Croley and Asher Waxman to help with the lead.

A rather large group of 17 climbers started the hike at the Apple Canyon Zen center at about 9:30 am. Earlier would have been better. The weather was perfect - cool and breezy and sunny. Some I-rated leaders were included in case of unforeseen problems. The leaders were myself, Asher, Don, Gary Schenck, Marlen Mertz, and Pamela Rowe. 6 leaders should be enough for most trips. The "followers" were Bruce Craig, Ellis Crasnow, Mary Jo Dungfelder, Rudy Fleck, Paul Garry, Laura Joseph, Rick "Fluteplayer" Kemencesi, Doug Owens, Laura Stockton, Wayne Vollaire, and Garen Yegparian.

Garen was entitled to another chance at this wonderful summit after, on a trip 5 years ago, the "leader" (who has since fled the state) forbade him and some others from attempting the 3rd class summit, and they were told that they could "count" it anyway. This is a bunch of - uh, how should I say - "Tommyrot".

We hiked through the Zen Center and ascended the feeder trail to the PCT. This is about 1.3 miles with 1400' gain. After a short break we hiked the mile plus on the PCT to the start of the Sam Fink trail which more or less follows the rugged, high 2nd class north ridge. The group was strong and the route went well.

Since I had not ascended Antsell in the past 4 years I scouted it a few days before. I had Wynne Benti, Zobeida, and Jennifer Washington for company. Tough duty. We missed a few turns on the Sam Fink trail, but corrected the errors. I saw no Fink trail markers on the route until we reached the 3rd class crack, where Zobeida spied marker #91 on the ground, hidden in rocks. Where did they all go?

We found something that disturbs me greatly. Please pardon me for the following rant. Some silly #!*&^ had taken the register can down from the summit and placed it in a neatly built rock nest at the bottom of the crack. I find it impossible to comprehend why anyone would do this. If a person feels compelled to place a can at the bottom of the crack, the person could invest in a second can and leave the official one where it belongs. Anyhow, I carried it back to the summit. But I am sure that this person will persist and take it back down.

One more rant and I promise I'll cease. I hiked Yucaipa Ridge on the following Saturday with Kent's group. Some @*!)#&-ing litterbug had tied hundreds of orange flags, many with reflectors stapled to them, along the route. This practice just trashes the route, pure and simple. If any hiker wants to hike this route and enjoy routefinding, his fun is ruined. If a future leader wants to do a provisional trip here? Forget it. Anyway, the group removed all the flags we saw. Could this twisted trasher be the same person who removes the register cans?

Well, all right then. The group proceeded along the Sam Fink trail, keeping close. Laura Joseph realized that her mending broken thumb wasn't up to the climb, so she reluctantly dropped out. Then there were 16.

We solved the mystery of the missing Sam Fink trail markers. Some of us spied them in the dirt. They had fallen because the steel wire ties had rusted through. Anyone leading this peak in the future should take some stainless steel wire and retie them to the trees along the route.

We reached the legendary crack and split into 2 groups because of limited space on the summit. One group ate lunch while the other climbed. Don supervised the crack climb and Asher led both groups to the summit. Amazingly, no one exhibited any problem whatsoever getting to the summit. Some wanted to do it again.

I insisted that we go back the same way, avoiding the steep gully short cut down to the PCT. No one objected. The upper part of that gully is just too dangerous for such a large group. It would be fine for 2 to 4 people. I confess that I got a bit lost along the Sam Fink trail in both directions, even after scouting it. I'd like to blame this on my advanced age, but I've been making the same errors for many years.

We picked up Laura near the PCT, then Asher and Marlen led her to Southwell. Rick and Doug opted to sign out and go home early. The rest of us (12) went for Apache and Spitler. I fully expected all of us to get back to the cars in darkness. For future reference, we started at the junction of the PCT and the Zen Center feeder at 3:35 pm. We all bagged both summits, reaching Spitler at about 5:20. On the return we divided into 2 groups, the faster group outrunning darkness to the cars. My small group needed to break out the headlamps for about 15 minutes and we met the rest of the group at about 7:45. All objectives were attained with no problems and all seemed to enjoy the hike immensely, I know I did.
Seven dedicated HPSers met up with leaders Mars and Karen at the trailhead (HPS Route 1). Beneath clear blue skies and reasonably moderate summer temperatures, we were off to Galena via the rugged Mill Creek wash at 9:00am. Mars set a comfortable pace up the wash, taking about a ten minute snack and water break every hour which helped maintain consistent energy levels. We saw two bighorn sheep just above the wash and ran into a few hikers.

Mill Creek Wash terminated at the base of the Mill Creek Jumpoff, otherwise known as "the headwall." This was Mars’ 16th time up the peak and second time up within the past two weeks. The geology of the wall had changed during the past winter, so we stayed in the tan dirt and rock just to the left of the gray rock. Mars noted that the sheep trail he followed across the gray rock in years past had eroded away, and that this was the steepest he had ever seen the headwall. By the time we worked our way to the top of the headwall, with sand and rock tumbling down, three had turned back for various reasons. Turning south, we followed the steep ridge to the summit of Galena. It was about 3:30pm. We spent a few minutes taking photographs then started back down at approximately 4pm.

As we approached the headwall, another party of seven were attempting to climb it with full backpacks. As we watched them struggle, almost prone, it demonstrated how really steep the wall was. Two of their group made it, but the rest turned back, followed by the other two. Our group went down parallel to each other in two groups of three each, with Mars taking the first group and I taking the second. At the bottom of the headwall, with Mars’ OK, we bee-lined for the cars while he stayed back with a member whose sore knees slowed the pace. The first were back to the cars at 6:30 with the last coming in about 45 minutes later. Thanks to Mars and Karen for leading such a nice hike up this challenging peak.

Newton Drury Peak,
August 19, 2006
By Wynne Benti

This is what happens when you clean out areas and don’t finish the list in a timely manner. New peaks are added to previously cleaned out areas (Drury being one) and the old peaks one struggled to get. (like Ortega and Bare) through brush and bullets, are deleted. The neat thing is, that you can revisit an area from a completely different route and gain a whole new perspective on a place in the mountains you thought you knew. Such was my experience with Drury Peak.

In any event, the day before (August 18), I had hiked up Galena Peak with Mars Bonfire and Karen Leverich so we were planning to do Drury the easy way via the Palm Springs Tram. However, when I arrived at the tram road at 7:30am, the gate across the road was locked and the tram was closed for repairs. Before coming down from Bishop, I checked out the tram website and saw that it would be closed August 17-18, but would be open on August 19. According to the employee who was standing at the locked gate, the repairs took longer than anticipated.

So, I drove back to SR 243 and the Marion Mountain trailhead and noted a few updates to the HPS Guide driving route notes, where the guide says drive south on SR 243 for 19 miles to a junction with a dirt road, that dirt road is now paved. The signed Marion
Mountain trailhead and parking area have been permanently relocated outside the campground. By 8:10am, I was on the trail. The air temp was a cool 65 degrees, quite pleasant for walking up the sometimes very steep, but very pleasant trail through springs and fern dells, oaks, then granite and pines to Little Round Valley Campground. Walking over to the signed seasonal USFS ranger station (closed and dismantled), I took a bearing to Drury, directly south just to make sure it was the right bump, then gained approximately 480’ up through pines, across small outcroppings of granite, beds of pine cones and needles, arriving on the summit by 11:30am.

Downhill on the Marion Mountain Trail was so much easier and uneventful. I was back at my car by 2:00pm and drove home to Bishop, arriving around 7:30pm.

Reflections on Four List Finishes
Lilly Fukui and Val Saubhayana
September 2, 2006
Jorge and Diana Estrada
September 9, 2006
by Tom Hill

There are times of finest moments in any organization, certainly true within the HPS... When we populate some dramatic high point with a crowd of sympathetic witnesses at the end of a Very Very Long Journey for some special hiker who finally grabs that gold ring... When that last summit register is reached and signed, when the goodies come out, when the "table" is spread and the cameras and bottles of sparkly begin popping... All of these rituals and good feelings echoing the sounds of our own quests and aspirations... Memories too poignant, days too special to be forgotten.

Yet how rare to witness a simultaneous finish, when two partners who have braved the wilds together find their fulfillment on that last summit. Even more incredibly, on back-to-back weekends we were privileged with not one, but two sets of just such dramatic events. And not just ordinary celebrations, but huge events comparable to the Waterman Rendezvous, involving truly wonderful people who just happen to be hikers, who have brightened every trip they've attended over the years.

Lilly Fukui and Val Saubhayana, on a Labor Day weekend Saturday, when Morris Peak was sunny and bright yet still very accessible -- What a moment in the sun, as we congregated in their honor!

Jorge and Diana Estrada, on another fine day in the San Gabriels -- How beautiful the peak we now call Goodykoontz Peak, how pleasant the camaraderie when we gathered yet again!

Did I say special moments? Perhaps. But what about all those hundreds of other special moments, those particularly difficult peaks, those sagas to be related over the years, those peculiar twists and turns arising from weather-borne fate?

In particular, how would you feel if you needed Dragons Head and a rampaging brush fire closed the entire Wilderness just before your scheduled finish? Done! Dragons Head, Lilly and Val, Aug 5, right after the closure was lifted, a close-knit group of six hiking friends on a beautiful sunny day.

How would you feel if Jorge needed Samon Peak and that exact locale is plumed under the smoke, closed down not once but multiple times, pushing your goal ever further into summertime? Done! Samon Peak, Aug 27, with details probably best left to imagination.

Which brings us to their richly deserved "Kudos. Job well done, you four! An absolute Triumph of steadfast perseverance over not just the physical, but over the emotional barriers that separate us from our goals!!"

Peace be with each of you as new paths are forged toward new horizons. And thanks from all of us for brightening our lives during our mutual journeys.

Lilly Y. Fukui

When asked to give a speech, needless to say, I was emotionally "speechless." I am so very grateful to a lot of people - for the leaders taking us on private hikes as well as hiking "buddies" who joined us on those occasions, as well as all the leaders giving their time to scheduled hikes. One leader, after congratulating me, asked me a few questions which I would like to answer here as well, in case some of these Q's are on your mind: My favorite HPS peak? I replied that it was not necessarily the peak, but the enjoyment I got out of the location, the leader(s) and the hikers....but if I must pick one, it is Eagle Crag! My least favorite? BACKPACKING - you know, the BIG 3, and the BIG 4! The backpack in the photos look bigger than me! Yikes! And my future goal? To lead 100 peaks. After that, maybe, just a big maybe, I may go for an "I" rating. Thank you, everyone, for all the efforts you have put in so that we could have this celebration! This is one special hike which will remain in my memory forever!

Val Saubhayana
I feel like I was on top of the world on Morris, I was so touch! Lilly and Val did it. I like to thank you all.
leaders and friends that made this possible from the bottom of my heart.

George Wysup

I weighed the pros and cons of attending the great spectacle of the Fukui-Saubhayan List finish on lofty (7215') Morris peak.
The pros:
a. I get to hang out with a pair of special babes.
b. It’s only 200 miles from my house.
c. There will be no danger of freezing to death.
d. There will be food and booze.
The cons:
a. I will have to walk 8 miles.
b. I will have to sing along to some Mertz doggerel, poorly adapted to some familiar (to others) tune.
I went. I was amazed at the crowd that showed up for this event, what with the Doggett’s race to Black and Snowy going on. I met some new friends. I ate and imbied. I sang loudly, if a bit off key (what key?). I almost passed out standing in the sun. I enjoyed.

Larry Pirrone
This hike was great fun and it was wonderful to see old friends that I have not seen in a while. Being there to support you was the highlight.

Sara and Darrick Danta
So glad we could come!!! Val looked so excited and wouldn’t stop smiling or laughing. Lilly you are still my hero....I’m so glad I met you!!!

Suzy Hermann
You are a remarkable woman and I feel privileged to be counted among your friends. Here’s to more hikes together. I truly enjoyed your FINISH. All the folks who were able to make it made it even more enjoyable. I’ve been waiting for this day and loved to be able to celebrate with you and Val. Forty-six folks....reminiscent of the hikes in the 60s when 30, 40, or 50 people would trudge, run, walk, hike and plod up the trails to many of those peaks.

Laura Joseph
Congrats again to you and Val. It was a real joy to be part of your celebration and to see so many old hiking buddies. We often lose track of each other and these events are a great opportunity to reconnect. The spirit of the group was inspiring and the food elegant. I look forward to many more hikes with you and Val and the whole gang. We need to keep in touch more regularly.

Marlen Mertz
It was fun planning a contribution to your list finishing hike! That was quite an accomplishment!!! I so much enjoyed the day and was thrilled for the two of you. The best part of the day was seeing all the support that the two of you received from your hiking friends. That over 45 people participated in this hike was a tribute to you and Val. All throughout the day, people were remarking about what special people you are and how much they have enjoyed getting to know you over the hike past number of years. Also very special was seeing the joy on both your faces when you took your final steps up to the rocky peak and you and Val took each others hands, holding them up victoriously with the biggest smiles on your faces. It was a happy day for all of us, sharing in your joy and also spending the day with so many of our hiking friends all together on one peak on one very special day. I am glad that I was able to celebrate with you!

Chris Spisak
I only met Lilly and Val towards the final few peaks in their pursuit of The List. The excitement had already built, and I was privileged to accompany them, and their leaders, on the planning and quest of their final four peaks. Through this, we have become close friends, and I am constantly amazed by their determination and stamina. I’m sorry that I didn’t get to be more a part of the chase.
They are both strong, independent women who are able to shrug off a little pain, and adversity, and forge ahead. This carries through their lives even off the trail. They have a soft, considerate side, too. So it’s no surprise that their final party on Morris was attended by so many. I wish them luck on the next trail they set out on, and know they will approach their future, like they so ably did the Hundred Peaks List. Brave!!

Mary Jo Dungfelder

It was a lovely celebration, albeit a little on the warm side. The turnout was great and the line of people zig-zagging up the trail looked like those old black and white photos of the Mule Packs going into the Sierras for an extended stay.

Nothing like a List finish party. China and her girlfriend, Jessica, were quite impressed. Lots of old folks who’ve still got it. They especially enjoyed talking to Dorothy, as well as shaking Mar’s hand . . . I think they half expected him to break into song. They marveled at Tom’s strong hiking and leadership abilities.

There were so many folks I had to keep looking for you through the crowd. The great thing about hiking is all the wonderful people we all have met and a list finish party brings us all together. I’m looking forward to your leading me on some of the many peaks I have yet to do. Congratulations again. See you soon on the trail again.

Gary Schenk

It was great to see two such good friends finish together! You both really did something amazing. Now on to the DPS list?

Bruce Cristol

As I was sitting just below the summit of Morris Peak, eating my salmon and rice, I reminisced about what led to my being honored to be a part of Lilly’s and Val’s celebration hike....Several years ago I was assisting Sharon Hechler gain a few more peaks one Sunday morning. As we descended from Mt. Lawlor, heading toward Barley Flats, I met Lilly and Val, accompanied by Mars Bonfire, who were coming from the opposite direction. Just this past Spring I was reacquainted with the two some at Whale Peak.

Thereafter, a curious thing happened. I was leaving the Huntington Library one Friday afternoon, when both Lilly and Val were entering. Several days later, as I was socializing with other hikers at Orchard Camp, Lilly arrived. Again, a few weeks later as we four hikers were resting at the entrance to the Cucamonga Wilderness (Icehouse Canyon), here come Lilly, Val, and Larry Pirrone. After chatting awhile I jokingly indicated to Lilly that I would see her the following weekend. Ironically, we both were hiking from Chantry Flats the same Sunday morning...That almost supernatural "boding" brought us together again this past Saturday.

I was truly moved by the warmth and caring showed both Lilly and Val on their special day by the other forty-four participants this past weekend. The weather was excellent, the scenery exquisite, and verses

written expressly for them by Marlen were very entertaining and enlightening. I met people who I had known before only through the words of Sharon and liked them all. Again, I am thankful to have been a part of that delightful day.

Markey and Robert Neighbor

Be assured it was a real joy for Markey and I to celebrate Lilly and Val’s list finish. You two are among our favorite people and we hope to cross paths with you on the trails many more times to come. Your friends always, Robert and Markey.

Bobcat Thompson

What a great day for you and Val@ With almost 50 friends, you both accomplished a great feat! With lots of long-time hikers like Tom, George, Joe and others, and all the HPS List Finishers, it was truly a remarkable day! And what a beautiful setting on the Pacific Crest Trail in the Sequoia National Forest atop Morris Peak. A day to be remembered forever. Also, soooooo many goodies and drinks to celebrate with. You and Val are two very remarkable women. Here’s a toast to you both, and may you both have many more years and list finishes to celebrate in the coming years. See you on the next mountaintop!

Lloyd Johnson

It was so great to see all the happy faces gathered in one place. All of us knowing the accomplishment and challenges it is to finish the list. You and Val are such nice people, all of us (46) wanted to share the moment. To get outdoors, with nature, and be with individuals who enjoy the same thing is beyond words. All the best to you & Val.

Ginny Heringer

On the Occasion of Lilly and Vals List Finish, 9/2/2007. First it was Lewis and Clark exploring the wilderness, then Thelma and Louise facing their issues, and now its our own famous HPS pair, Lilly and Val, overcoming physical and mental challenges to complete all 276 peaks. And they’ve remained best friends throughout it all!

We enjoyed hiking the peaks, but I think it would be even more fun with someone to share every step of the way with, whispering about the parts that were really scary even though you didn’t let on, grumbling to each other about the sore muscles, ticks, scratches, dirt, sunburn, heat and altitude sickness, but always presenting an upbeat attitude to the rest of us.

Lilly and Val are the most positive participants on our hikes, eager, cheerful, and friendly to everybody as we saw at their well-attended list finish party. With each other and with us, they reached their goal Congratulations, Val and Lilly!

How fun to hike up to the spine of the Sierra, affording Sound of Music views on both sides. Top that off with a friendly group of HPS’ers out to recognize the efforts of
two wonderful women. The singing of Martin’s cozy Ode to Lilly and Val brought out the kinship of this hearty group, accompanied by Val’s cherished laugh. Pictures were taken and speeches were made, and Cokes on ice were enjoyed. In the afternoon golden sunlight lit up spans of graceful hillside. Congratulations Val & Lilly, a nice goal set and accomplished in an activity you enjoy. Kathy Brown

Goodykoontz Peak (7558’), et al, Diana/Jorge List Finish September 9, 2006 by George Wysup

Two major groups of hikers successfully attacked Goodykoontz Peak in a delayed pincers strategy in the first ever scheduled HPS trip to this peak. At one instant there were 44 celebrators on this very pleasant summit on this beautiful and cool summer day. There was adequate food and beverage to fatten up an even larger army. Very little of the food offerings might be considered healthful, except possibly by junk food champion Peter Doggett.

Laura Joseph looks on as Diana and Jorge celebrate finishing the HPS List on Goodykoontz Peak.

Diana and Jorge Estrada signed up for the trip, declaring that it was planned to be their List finish!

The leaders determined that the marathon hike from the Punchbowl was inconsistent with the expected huge crowd of celebrants with a wide range of hiking abilities. We finally decided to go the easier way (I didn’t say “easy”), from the Buckhorn campground trailhead.

One consideration was that the Estradas needed to bag Pleasant View Ridge on the way to Goodykoontz, and that many didn’t really want or need to visit this remote mound. So we opted for 2 groups— an “early” group to go the long way, to Will Thrall and Pleasant View via Burkhart Saddle, then over Pallett Mtn and south to Goodykoontz. A “late” group would go directly to Goodykoontz, then consider the 3.5 mile extension to Pallett as an option. We decided that the early group, led by Joe Young, Laura Joseph, and me, should meet at 7 a.m. at La Canada rideshare, with the late group, led by Tom Hill and Marlen Mertz, meeting 2 hours later. Here is what happened from the early group viewpoint.

I arrived at La Canada, McDonald’s sandwich in hand, at 6:50 a.m. to find a large and enthusiastic group already there. We proceeded to Buckhorn’s day use parking area (the Burkhart trailhead). There were 20 of us. We three official leaders noted that there were plenty of experienced potential helpers in Asher Waxman, Ron Hudson, Mars Bonfire, Peter and Ignacia Doggett, Wayne Vollaire, Kathy Cheever, Kathy Rich, and Don Cwik. Others present were the list finishing Estradas, Sonia Arancibia, Dave Heffernan, Dan Luke, Wasim Khan, Ellis Crasnow, and Bruce Craig.

Just before our 8:15 hiking start, Laura Joseph asked to set the pace for the beginning of the hike. No telling why but, sure, why not? The pace was moderate and most everyone was following, their toes at the heels of the person in front. I was sweeping. I made the mistake of stopping to photograph a plant. So I appeared to the rest to be some dawdling slug when I finally caught up at a split break pause. When we reached the 5 mile post at Burkhart Saddle I was many yards behind, though my legs were scurrying as fast as they could. Laura approached and asked confidentially, “are you

Jorge and Diana Estrada on Pallet Mountain

This Goodykoontz outing was originally scheduled to originate at Devils Punchbowl because we understood that the closure of Rattlesnake creek and part of the PCT in the Williamson Rock area put the southern Burkhart trail off limits. Over the months between scheduling and executing, the trip underwent quite an evolution.

First, we found that the Burkhart trail was definitely OK to hike, so long as the Rattlesnake creek portion of the PCT is avoided. Also, I determined that hiking from Devils Punchbowl is quite a long hike. Then,
having a problem today, or just taking it easy?" Ouch! Well, I guess that's it for my hiking career. Now I'm just another pain-in-ur anus hiker who slows down the group. From now on I will be relegated to hikes where everyone carries a sleeping pad and has to take a nap every hour. I'll need to carry more extra batteries for my headlamp. Maybe I can start leading for Natural Science Section. I'll be on the permanent wait list for any hike harder than Waterman route 1.

So, I fired Laura and gave the Pleasant View and Will Thrall lead to Joe. Asher and I hung back, our excuse being that we had to stay with "Big Dan" Luke, who doesn't do steep uphill very fast. Dan, at 250 lbs, has been hiking for only about a year. He is improving fast and does much better than his present appearance suggests.

When we neared Pleasant View we met the party that hiked in from Devil's Punchbowl. Zobelda "Explorer" Arauz needed explorers on these two peaks. She was accompanied by Pat Brea, Tom Connery, and Larry Campbell (attracted by the 22 miles and 8000' gain for this round trip route).

We killed about 20 minutes back at Burkhardt Saddle to doctor a minor leg cramp. Such happens with large groups. Then on up to Pallett and down the other side. I had usurped the lead at this point. We contoured around a gully and attained a ridge that curves in a general N-S direction to reach Goodykoontz after about 1.1 miles. It goes quite well, probably the best behaved of all routes to Goodykoontz.

18 hikers in the "late" group had been on the summit for at least an hour and a half, waiting for us. They were getting quite impatient, realizing that they should not begin pigging out before the Estradas, who were with my group, arrived. I figure it's their own fault for not taking that time to bag Pallett.

This group had come up the south ridge from near the Rattlesnake trail junction. Most of them were complaining about that route. "Steep and slippery," they moaned. Laura J and I had descended this several years ago, on my first trip to scout this peak (the eponymous Frank Goodykoontz was still alive and kicking then) and I remembered it as going quite well. Also present were HPS Chair Winnette Butler and Outings Chair Karen Leverich, presumably picking up pathfinders or whatever from Islip Saddle via Mt. Williamson and "Airplane Crash Ridge", named for at least three WWII-era plane wrecks up there.

In any case there were 44 people up there at one time, carbo loading for the strenuous trip back. The feed consisted of plenty of chocolatey confections and a half gallon of cookie dough ice cream with bosco topping (courtesy of Marien, I think). Some health nut brought a veggie tray to spoil the theme. The tableau centerpiece was Diana's pet bear.

The Estradas were presented with a card, signed by all, and Laura showered them with gifts, not of frankincense and myrrh, but a pair of "Dirty Girl" gaiters and a rag of some sort. We elicited a promise from the Estradas that they would continue to hike with us (sure, that's what they all say). Then Marien passed out lyrics for 2 songs, which we then had to "sing." Lots of fun. Let's get outta here.

We all headed west down to bump 6709 (aka "Bobcat Knob", so dubbed in honor of a human bobcat) and re-coagulated. I led a group of 21, including 2 people who were parked down there because of some difficulty in the ascent, down the southish ridge. Most of those who had come up this way opted to go with Tom down a northwest ridge. My group soon learned that we had grabbed the rectum end of the thermometer. Suffice it to say that I do not recommend anyone ever going this way. I understand that the other route went very well. The other group beat us to Rattlesnake junction, even though they had more distance to cover. It seemed like all were present or accounted for, so we hied, helter-skelter, back up the 750' gain to the vehicles, all arriving before 6:30 p.m.

As best I can figure, the "early" group negotiated 13.5 miles, with about 5100 feet of gain, on our adventure. The "late" group managed perhaps more like 7 miles with 2800 feet of gain, much of it over rugged cross country.

Mount Baker
A Private Outing
July 28-30, 2006
By John Connelly and Roxana Lewis

Greetings from Everett, Washington! After retiring at the end of 2005, Evelyn and I vacated SoCal in favor of the Pacific Northwest—and new hiking adventures for me. As a sequel to our 2002 Mount Rainier climb, Roxana inveigled me into an attempt at 10, 781 foot Mount Baker—the northwestern anchor of the Cascades. "On paper," it appeared to be less of a project than Rainier. The backpack to base
camp was shorter, and the gain on summit day was shorter with 1,000' less gain. The reality was different. Due to weather and terrain factors, I rate Baker the harder trip. In 2002, we had two additional colleagues: George Wysup and Virgil Popescu. This time, these gents declined our offers to come along.

We signed on with Alpine Ascents International, a respected Seattle-based firm leading mountaineering expeditions all over the world. The format was to back pack in on day one and set up a base camp on a snow field at about 6,500'. Day two was for training. We practiced roped glacier travel and various self/team arrest techniques. On day three, we would launch for the summit around 2:30 AM, then hike out.

Roxana and I met at the Alpine Ascents office, in downtown Seattle, for our “gear check” the day before the trek. A daunting equipment list gave me trepidations about luging all that stuff to our base camp—some six miles and 3,500' gain, the upper part of which was a permanent snowfield. In addition to all our personal gear—for example, crampons, ice axe, headlamp and all kinds of expensive clothes—we were each expected to carry a number of group items, such as tents, ropes, snow shovels, cooking equipment and food. To prepare, I had been hiking Mount Si—a local favorite about 30 miles east of Seattle—carrying loads of up to 45 pounds. Although I never weighed my actual pack on day one, as loaded, I think it was at least ten pounds higher than my “training pack.” Roxana, who is about half of me, carried just as much, although I don’t know how. Must be her youth. She is one stalwart kid.

In the middle of our second night at base camp, we roped up, turned on our head lamps, started slogging up the slope toward the summit. It was a very fit group. Roxana and I were the senior citizens by a wide margin. We had three rope teams, each with 4 or 5 persons, including two guides. The night was foggy, and a light rain was falling. The weather worsened the higher we went—more fog, rain became snow, and our footing was not conducive to using crampons.

Some six hours later, at an elevation of 9,800’, we attained the crater rim, but still a tough 1,000 feet to go. The guide estimated it would take another two hours to summit, and made the decision to turn us around. Under ideal weather conditions, this group would have been on top at this point. Regrettably, that was not to be.

After 9 ½ hours, we were back at the base camp, with snow covering our tents. As we hiked out, the weather gradually improved, so that—by the time we left the snowfield, the falling snow became wind and a slight drizzle. I finally got out of my Gore-Tex about an hour before reaching the cars. All told, a 16-hour day.

Roxana is now suggesting we give it another go next summer. I’m not so sure. I need more time to forget how hard this one was.

A word about peak bagging in the Pacific Northwest. The Seattle Mountaineers function somewhat like our Sierra Club mountaineering sections. My impression is that many if not most of the worthwhile peaks in the Olympics and Cascades have class three or four summits; moreover, the hiking season is much shorter. The snow level is around 2,000' for several months each year. I would say, that HPS or its sister sections would consider most of the summit climbs as M-rated. In the past nine months, I have done quite a lot of hiking, but have only a few peaks in my bag. My rain gear is getting used a lot. Soon, I must break down and buy snow shoes or change sports for the winter months.

Hundred Peaks Section Election Information

Instructions: Please read over the candidate statements, bylaw proposal, and proposals to remove three peaks from the List. Mark your ballot, making sure to vote for no more than six candidates running for the Management Committee. Fold the ballot as indicated, seal only with tape (do not use staples), and affix a 39¢ stamp. Ballots must be received by the Election Committee before December 1, 2006 in order to be counted.

Candidate Statements

I’ve had a great time being the Membership Chair for the past couple years. Seeing how excited folks can get when they earn a new emblem makes the job a real pleasure. I really appreciate getting to play a small part in all the celebrations.

I’ve also enjoyed being an elected member of the HPS Management Committee this past year. It’s a pleasure to serve a group as active and interested as the HPS members are. If re-elected, I’ll continue to do my best to represent the needs and desires of the group, and appreciate any input and feedback that you can give me.

Greg de Hoog

Member of the Sierra Club since 1971. Former Chair of the Loma Prieta Chapter in Northern California. Long time O-rated leader. HPS List Finisher with 27 to go and struggling towards a second List Finish.

My goal in joining the HPS Management Committee is to move the section closer to the philosophy of the Club, to increase the focus on environmental and conservation issues while keeping the section strong and supporting the attraction of new members.

Ingeborg Prochazka

My fellow peakbaggers: “If nominated, I will not run; if elected, I will not serve!” Remember those words from one Lyndon Baines Johnson in 1968? (Just kidding)! I once again wish to serve you on this August board. I have been a member of the Committee previously, and have much experience there. Member of HPS since 1974, chair on two prior occasions. Would appreciate greatly the confidence placed in me by your vote. Will serve you in the best way to ensure that the next 50 years is as fruitful as the first. Happy trails!

Jim S. Fleming
Active "I" leader. HPS Past Chair, current Mountain Records Chair, Angeles Chapter Leadership Training Committee Administrative Chair. I enjoy serving the HPS community.

Wolf Leverich

For 20 years, I've enjoyed peak-bagging and socializing with the wonderful members of HPS. These years have brought lifelong friends, many memories, laughter and tears, great trips, beautiful peaks and a few I'm glad are checked off my list, at least for now! I am so thankful for the experiences I've had with HPS, not only on peaks and trails, but wherever we gather.

It's been my pleasure to serve this year as Vice Chair and Outreach, working to increase HPS membership, and pitching in whenever I can contribute. I feel privileged to work with our other members of HPS management committee and hope I'm chosen for another term but pledge my continued service, whatever the outcome.

Lynda Armbruster

I am interested in becoming a member of the HPS Management Committee in order to contribute to the work done by that committee. I frequently participate in outings hosted by the HPS and other Angeles Chapter Sections, both as a participant and as an l-rated leader. I believe the MComm provides an important function and, if chosen, I will help in any capacity selected and look forward to those duties.

Wayne Voillaire

Has it been a year? Yup, guess so, time for an Mcomm election. In this past year, I've continued to serve as Outings Chair and to maintain the HPS web site. I'd be happy to do so again next year. Or I'd be happy to get someone else spun up, and head out and lead some hikes. Being on Mcomm is great fun (consider running next year, if your name isn't here with mine this year.) HPS is great fun. Leading for HPS is even greater fun. But most of all, spending time in our mountains is great fun. And a great adventure!

Karen Leverich

I have been nominated to run for office for the year 2007. The following is my qualifications and philosophy. I have completed my first List and almost done with my second. I have also completed the Lower Peaks list. I am rated "I".

If elected, my goal will be to expose as many people as possible to the wonderful world of hiking. If you look at our current schedule, most hikes are done on the weekends, with good reason. Most people are off from their jobs on the weekends. I hope to lead more hikes during the week for those who can. When I do a private hike, I post it via email to as many people as possible. I encourage all hikers to do that. Thank you for considering me for an officer.

Section 8. Achievement Recognition

[as currently written]

Achievement recognition is awarded by the Management Committee to anyone who has been an active HPS member for the preceding six months and has completed the climbing and leading requirements listed below. Applicants must submit a list of peaks showing dates climbed to the Membership Chair. Various patches, pins, and other items approved by the Management Committee are available for sale to those who earn achievements. Certificates of achievement may be issued as appropriate.

1. The 100 Peaks Emblem is awarded for climbing 100 peaks on the List.
2. The 200 Peaks Emblem is awarded for climbing 200 peaks on the List.
3. List Completion is recognized for climbing all peaks on the List.
4. Multiple List Completion is recognized for climbing all peaks on the List multiple times.
5. The Pathfinder emblem recognition is awarded for climbing 100, 200, or all the peaks on the List by two different routes.
6. The Explorer emblem recognition is awarded for climbing 100, 200, or all the peaks on the List by three different routes.
7. Snowshoe emblem recognition is awarded for climbing 25, 100, 200, or all the peaks on the List by use of snowshoes or other flotation device in snow.
8. 100 Peak Leads is recognized for leaders who have led 100 peaks on the List.
9. 200 Peak Leads is recognized for leaders who have led 200 peaks on the List.
10. Leading the List is recognized for leaders who have led all peaks on the List.
11. Leading the List Multiple Times is recognized for leaders who have led the List multiple times. For the leader achievements, being the Leader or Assistant Leader on a scheduled hike for at least half of the ascent is sufficient for the lead to be counted. For the non-completion achievements, peaks that were on the List at the time when climbed or led may be counted. For the completion achievements, all peaks on the List at the time of application are required, except for the multiple completion achievements; in these cases the requirement applies only to the most recent completion.

Section 8. Achievement Recognition

[proposed]

1. Recognition of Achievements Achievement recognition is awarded by the Management Committee to anyone who has been an active HPS member for the preceding six months and has completed the requirements for a particular achievement. Applicants must submit a list of peaks showing dates climbed to the Membership Chair.
2. Achievement Requirements: For leader achievements, being the Leader or Assistant Leader on a scheduled hike for at least half of the ascent is sufficient for the lead
to be counted. For non-completion achievements, peaks that were on the List at the time when climbed or led may be counted. For completion achievements, all peaks on the List at the time of application are required, except for the multiple completion achievements; in these cases the requirement applies only to the most recent completion.

3. Changes in Achievement List Achievement additions and deletions and changes to specific achievement requirements may only be made by a vote of the active members in the annual election.

4. Ballot Proposals: Proposals for achievement additions and deletions and requirement changes may be placed on the ballot in two ways:

1. The Management Committee may authorize such a proposal; or
2. A petition signed by at least twenty active members may direct such a proposal, if received by the Chair at least two weeks before the annual business meeting. Any Section member may sponsor a written proposal to the Management Committee for achievement additions or deletions or requirement changes at least two months before the annual business meeting. If the Committee decides against the proposal it shall notify the sponsor at least one month before that meeting.

Proposals to Remove Three Peaks From The List

Argument for deletion of Palomar High Point

This peak is an average of about 131 miles one way from Los Angeles, plus 13 miles on a dirt road, with a short hike to the summit which is decorated with chain link fences and communication towers. Hiking along an unpleasant dirt road or through bushes in restricted and private areas is not an alternative! In view of Al Gore’s ‘An Inconvenient Truth’ and in accordance with the Sierra Club’s position on Global Warming with the goal of reducing the burning of gasoline, keeping this peak on the List is very wasteful and delisting is the conscientious thing to do. (Ingeborg Prochazka)

Argument against deletion of Palomar High Point

Not too many people would drive that great of a distance just to do Palomar Mountain. Trips to Palomar are combined with 5 or 6 other peaks in the area.

1. It is a prominent geographic peak in the ranks of Santiago and Modjeska, Baldy, San Gorgonio, and San Jacinto. With its white domed observatory, it can be seen from many peaks at a great distance.

2. If we de-List Palomar on the basis primarily that it is a long drive and a short walk, we will set a precedent for de-listing other peaks with the same criteria, such as Cannel Point.

(Ted Lubeshkoff)

Argument for deletion of Buck Point and San Sevaine Lookout

Buck Point and San Sevaine have been suspended since the terrible fires of 2003. For two years, the area was closed so it could recover from the fire. The area has been reopened but the peaks have continued to be suspended: unlike all our fire-suspended peaks, no one has visited these gems and let us know what the situation is.

I think I know why, and it’s the reason you are being offered the opportunity to delist them. These two peaks are of very little interest to most of us. With the road apparently permanently closed, they are a 20-some mile trudge on an exposed dirt road. My last visit to San Sevaine found a brush-covered knoll overshadowed by nearby radio towers. The real Buck Point isn’t even a peak, but a hunters’ lookout. HPS has assigned the name to a nearby bump. I doubt that the fire has enhanced their charm. Looking down from Etwanda after the fire, we see mile after mile of heartbreakingly burnt trees. Perhaps it is time to move on from these peaks and find some different, more attractive destinations.

Undecided? Join Tom Hill, Patrick Vaughn, and I on November 15th as we trudge up those 20 miles of dirt road to take a look. Not interested? If the November 15th outing sounds unappealing, seriously consider voting to delist these two peaks. HPS peaks should pose a fun challenge rather than pure drudgery. (Karen Leverich)

Argument against deletion of Buck Point and San Sevaine Lookout

There’s a lot to be said for having stability in The List. We obviously have to drop a peak when we lose all legal access. Fortunately this doesn’t happen very often, and in those cases we can try to add a peak of similar characteristics.

But if we start delisting peaks because they’re painful or they’re unaesthetic, we’re heading out onto some awfully steep scree. Do we delist Rabbit and Villager because they’re too hard? Do we delist Cannel Point or Palomar High Point because they’re long drives for a short hike? Do we delist Galena because it’s dangerous? Do we delist Barley Flats because there’s an open-air cesspool near the summit?

I’ve heard someone complain sometime about almost every peak on our List. When you vote, think about whether you want to send a message asking for stability, or whether you want to invite wholesale revisions to The List. (Wolf Leverich)
The Outings Management Committee: What Is It?
By Kent Schwitkis, Chair

OMC, the Outings Management Committee, is the committee responsible for the Outings Program in the Angeles Chapter. Through its sub-committees, it teaches wilderness skills and environmental awareness, promotes and certifies leaders, manages risk by formulating and enforcing safety policy, and provides support to the entity outings programs. Part of these responsibilities demands close cooperation between the OMC and the Entities, e.g. the timely review of proposed outings.

OMC was created some six years ago, to create a more vibrant outings program. The approach was to create a more democratic entity to oversee the program. This is requirement is mostly accomplished by the elections held at the annual Outings Assembly. Each entity with an outings program elects a set of representatives to the OMC (5), Safety Committee (1), and the Leadership Training Committee - LTC(!). This year's Assembly is at Eaton Canyon, on Saturday 28 October. Oh by the way, all outings leaders are encouraged to attend.

Organizationally, the OMC is a standing committee and reports directly to the ExComm; the OMC chair is a non-voting member of ExComm. Chapter Safety, WTC, and LTC all report to OMC, and each of their chairs are members of OMC. The entities really don't report to the OMC, but there is substantial influence between the "two," for example, through the acts of leader certification and publication monitoring. The OMC also has significant influence upon the National Committees. This occurs in two ways, through the "Org chart" (OMC "reports" to the Local Outings Support Committee (LOSC)), and through the individuals on OMC who are also members of the National Committees: Outdoor Activities Governance Committee (OAGC - the lead National Committee), the Mountaineering Outings Committee (MOC), and the Outdoor Activities Training Committee (OATC).

Currently, the OMC is made up of the following individuals: Kent Schwitkis (chair), Joe Wankum (Safety chair), Tina Bowman (LTC chair), Steve Nelson (WTC chair), Ann Pedreschi (Assembly Rep/AR/Vice chair), Silvia Darie (AR), Paul Sailer (AR), Donna Specht (AR/International Trips/Treasurer), and John Hinz (AR/conservation), Joel Goldberg (Bus Insurance), Marc Herz (Local Outings Support Committee, LOSC, liaison), Bill Jackson (Member Advocate/Sec), Wiley Wolff (webmaster), Lori Ives (records), and Steve Goldstein (CPR/1st aid).

OMC meetings are held at chapter headquarters on the first Monday of the even number months at 7PM. All those involved in the outings program are particularly invited to attend.

Chapter Outings Assembly
October 28, 2006

Join the Chapter Outings Management Committee on Saturday for a session on the present and future of the chapter's outings program. All Sierra Club members are invited, especially outings leaders, provisional leaders and outings chairs. See article Page 12 in September Southern Sierran. We'll meet at 9:30 am-4:00 pm at Eaton Canyon Nature Center, 1760 N. Altadena Dr, Pasadena. From 210 freeway eastbound, exit Altadena Dr, north 1.5 miles to park entrance on right. From 210 westbound, exit Sierra Madre Blvd, west 1 block to Altadena Dr, north 1.5 mi. Light breakfast and refreshments provided. Bring your lunch.

To remind you, the purpose of the Assembly is two-fold. A) It is one of the venues where we disseminate important information to our Outings Leaders. It is also another mechanism to information to flow from you and your program back to the OMC and ExComm. B) It is also where we elect a new set of OMC members as well as a member for the Safety Committee (SC) and a member for the Leadership Training Committee (LTC). Therefore, it is imperative that you have a representative at the Assembly to insure that you have a voice for you program. Only those outings chairs (or entity chair if the outings chair is absent) may vote.

More details regarding the Assembly will be forthcoming. The assembly will have a similar feel to last year, in that we will have breakout sessions. Topics may include problem participants, risk mitigation, fund raising trips, how to fill out those forms, and how to be an effective outings chair. In addition, we'll have a panel discussion regarding integration of political and conservation elements into our hikes. Hopefully, we'll find some KISS methods.
Wilderness First Aid Classes Available
Earn Your Leadership Credentials Or Keep Them Up To Date!

An introductory class in Wilderness First Aid will be conducted on Saturday, November 4, 2006 at Harwood Lodge. A refresher class in Wilderness First Aid will be held on Sunday, November 5, 2006, also at Harwood Lodge. Topics covered in both classes include scene survey, level of consciousness, patient assessment, controlling bleeding, wounds and burns, head-to-toe examination, vital signs, medical history, fractures and dislocations, and shock. The introductory class also covers strains and sprains, splinting skills, and roller/trimangular bandage skills. The refresher course has two realistic wilderness accident scenarios. Wilderness First Aid Course is an independent educational non-profit closely affiliated with the Angeles Chapter.

Applications for these courses are available at http://wildernessfirstaidcourse.org/application.htm. To apply please print out the appropriate form, complete the form, and mail it with a check for $50 (WFAC) to Registrar, Wilderness First Aid Course, P. O. Box 3414, Fullerton, CA 92834. If applying for the introductory course, please include either your Sierra Club membership number and leader rating or a copy of your CPR course certification (regardless of when you took the CPR class). If applying for the refresher course, send proof of completion of a wilderness first aid course of at least 24 hours which you have completed within the last 8 years (unless you took the WFAC).

BEGINNING NAVIGATION CLINIC – MAP/COMPASS WORKSHOP
COORDINATORS: DIANE DUNBAR, RICHARD BOARDMAN
SATURDAY, OCTOBER 28, 2006

We teach/practice at all levels. Come practice one on one with an expert instructor. We've held this 2 to 3 times a year for 11 years. Many "I" rated leaders started their nav in this class. Not a checkoff, but taught by Nav Examiners, WTC Leaders between classes, and other expert "I" to "E" leaders.

Send a Self Addressed Stamped Envelope with address, H & W phones and clinic date to: Diane Dunbar, 2351 Chapman Rd, La Crescenta, CA 91214. PLEASE INCLUDE A $25 CHECK MADE OUT TO THE SIERRA CLUB, TO BE RETURNED AT TRAILHEAD. FOR QUESTIONS, CALL DIANE (818) 248 - 0455.

HPS WILDERNESS FIRST AID
REIMBURSEMENT PROGRAM

Been thinking about getting your "I" rating? Now's the time. Thanks to a generous grant by Mars Bonfire, HPS is capable of providing a little extra incentive for folks considering becoming I, M, and E leaders. For new leaders, we can reimburse $50 of your tuition cost for Wilderness First Aid. This reimbursement can be used along with any other subsidies that Angeles Chapter and National may provide.

The details of the program follow.

Rules:
(1) The reimbursement amount is $50.
(2) Applicants must complete the requirements for their I, M, or E ratings after 12 September 2006.
(3) Applicants must be HPS members in good standing.
(4) Applicants must have led at least two scheduled I, M, or E outings for HPS. Their provisionals may count toward this requirement.
(5) To apply for the reimbursement, applicants should submit their names and addresses to the HPS Membership Chair after completing the requirements for the reimbursement.
(6) This program will end when available funds have been disbursed.

Procedures:
(1) The reimbursement committee consists of: (a) The HPS Membership Chair (chair of the committee), (b) The HPS Treasurer, (c) The HPS Outings Chair, and (d) The LTC Administration Chair
(2) After receiving an application, the Membership Chair will verify with the HPS Outings Chair and the LTC Administration Chair that the applicant is indeed qualified for the reimbursement.
(3) After verifying the applicant's qualifications, the Membership Chair will forward the application to the HPS Treasurer for payment.

ANGELES CHAPTER INCREASES COMMITMENT TO PRESERVING TRAIL ACCESS

By Wolf Leverich

The new Angeles Chapter Conservation Legal Committee has some lawyer-members who are interested in helping us preserve access to local hiking trails in Los Angeles and Orange Counties. Please let the HPS Mountains Records Chair <mrch@hundredpeaks.org> know anytime you see a trailhead being blocked that has previously been accessible. Developers sometimes block access through new housing projects, or homeowners block access through gated communities or private land. We would like to keep trail access open as much as possible and can do this only if we’re informed of access restrictions soon after they come about.

The Mountain Records Chair, when he receives your report, will augment it with documentation regarding how long HPS has been using the route and other relevant material, then forward the report on to the appropriate folks to work the issue.

Angeles Chapter
Management Committee Meeting Minutes

Date: July 11, 2006
Location: Newcomb's Ranch Inn, Angeles National Forest

Comm Members Present: Winnette Butler, Dave Comerzan, Jim Fleming, Wolf Leverich, Karen Isaacson Leverich, Lynda Armbruster, Greg De Hoogh
Comm Members Absent: None.
Comm Appointed Members Present: Bob Thompson, Joe Young
Members Present: Tom Armbruster
The meeting was called to order at 6:30 pm by Winnette.

Dave Comerzan submitted the minutes of the previous meeting. Several changes were made. The minutes, with changes, were submitted for approval. M/s/p.

Committee Reports:

TREASURER: Sandy Burnside: The Balance sheets and income statements for May and June were submitted for approval by Wolf for Sandy (see attached). M/s/p

MEMBERSHIP: Greg de Hoogh: The Membership report was submitted by Greg for approval (see attached). M/s/p

OUTREACH: Lynda Armbruster: Lynda reported that she attended a Newcomers meeting on 8/8/06 and spoke about HPS. She will attend the next Newcomers meeting that is held in Orange County.

PROGRAMS: Jim Fleming: Jim updated us on the following:

Spring Fling 06: Winnette is still in the process of collecting all receipts. By our next meeting, we should know whether we broke even on this event. Winnette reported that the $200 fee for Foster Lodge covered the first 20 people attending. Since the event covered two days and multiple hikes, we did not have a firm number of how many attended this event. Foster Lodge charges $5 per person over 20. At the time we reserved the lodge, we were not aware of this. We negotiated with the Lodge to pay them an additional $50 fee.

Fall Festival 06: Plans for a Powers Well base-of-operations have been made. Karen reported that a number of hikes are scheduled.

Banquet 07: Since the Schedule of Activities deadline is July 3rd, it was suggested we put it in the schedule with Program to be Determined. Jim is trying to confirm a speaker from the Wildlands Conservancy. The menu will have three choices. Price is remaining the same. We will keep it as a no host bar, with no wine provided at the tables (though members may buy their own).

Spring Fling 07: We are looking at Joshua Tree area to hold this event.

OUTINGS: Karen Isaacson Leverich: Karen reported that for the next Schedule of Activities, HPS has submitted 43 hikes in which we are the main sponsors of the hike.

MOUNTAIN RECORDS: Wolf Leverich.
Wolf submitted the MRC report that included changes to several peaks for approval (see attached). M/s/p.

CONSERVATION: Mei Kwan: No report was submitted by Mei.

ANGELES CHAPTER: Joe Young: Joe reported on the following: Mike Adams recently quit as Chair of the Outings Management Committee. Chapter is looking for a replacement. [Editor's note: Kent Schvitik volunteered to become Chair of the OMC.] The Sierra Club National is reviewing the waiver we currently use for possible changes. Chapter is looking into ways hikes can be submitted electronically. The 20-30's Section is trying this and it seem to be increasing their membership. They currently have over 3000 members. One way to handle this is to have certain hikes preapproved by chapter. As long as the leaders are properly rated for the hike, it could be submitted at the last possible date. Joe reported that he is working with the Southern Sierran and is requesting we send him trip reports on unusual outings that might be of interest to the whole chapter.

OLD BUSINESS: List Competition Pin: Joe had nothing to report on this at this time.

Nominating Committee: Members of this committee must be non-Mcom members. Names must be submitted by the September business meeting. Bob Thompson agreed to participate on this committee and will also contact Doris Duval and others.

Mars Bonfire Contribution: Mars has contributed $500 to be used as Mcom feels best. It was agreed that we could use this money to give a scholarship of $50 to HPS members who attended WFA to become "I" rated leaders. Wolf and Karen agreed to setup guidelines to present at September meeting.

NEW BUSINESS: HPS Adopt-A-Highway Program: Our sign on Angeles Crest has been knocked down. Jim will contact Cal-Trans to see how we can have it fixed.

Contributions — San Antonio Ski Hut/Patty Rambert: The San Antonio Ski Hut sent Winnette a letter
requesting a donation to help with repairs (see attached). We agreed to send them $100.

Patty Rambert Memorial: We discussed what we could do as a memorial for Patty. It was decided that maybe we could dedicate one of the hikes at the Fall Festival for Patty since this was a combined event with HPS/SPS/DPS. Patty was a member of all three sections.

Merchandise Issues: Bobcat reported that he is receiving no requests for maps and suggests we remove them from the Lookout. M/s/p. Bob also suggested we increase the price of Peak Guides to $39.50 for a set to offset the cost of increased postage. M/s/p. Joe will make the changes in The Lookout.

Annual Business Meeting: Winnette reported that if anything is to be voted on by the membership in November, it needs to be reviewed at the September meeting. There are some questions about the Snow Shoe emblem. It may need to be better defined. We will review any changes in September. Bobcat suggested we consider an emblem for four different ways to a peak.

He suggested the name "Navigator". Bobcat will submit a formal request at the September meeting. Joe suggested that for all these emblem changes and additions, we propose a bylaw change that allows Mcom to make these decisions with membership approval. This will eliminate going through Chapter. It was agreed to do this.

San Sevain/Buck Point: The road to these peaks has been closed for over two years and it is unclear when it will ever be opened. It is possible to walk this road, however, it would be 23 miles round trip for two not very exciting peaks. It was agreed that at the Annual Meeting we will make a decision on whether to propose delisting these peaks or not.

Election Committee and Ballot: It was decided that we keep the ballot as a separate mailing. We seem to get better turnout by doing it this way. Winnette will let Edith know.

HPS Email Address: Karen reported that HPS has an email address that appears in several publications. Right now, e-mail goes to an outdated address for Virgil Popescu and bounces. It was decided that Wolf will change this and that initially it will go to Lynda. If the volumes prove to be high, we can change who receives it.

Set Mcom Meeting Places: It was decided to continue with the following meeting places
September 12: Eaton Canyon
November 14: Winnette's
December 12: Winnette's
Joe also reminded us that we can hold special meeting telephonically through Chapter at no cost.

The meeting was adjourned at 8:20 pm.
Respectfully submitted: Dave Comerzan
