Come celebrate our accomplishments on January 11, 2014 at the HPS's annual awards banquet. This year's speaker is Tom Harrison, of Tom Harrison Maps. He will present "Mapping the Mountains." Tom Harrison was a California State Parks Ranger and has degrees in geography from Florida State University and San Francisco State University. Tom Harrison Maps has 66 maps in print, covering many of the wilderness areas and parks we love to explore in California. The banquet will be held at The Monrovia (534 South Myrtle Ave., Monrovia, CA 92016-2814). Happy hour will start at 5, and dinner will be served at 6:15. To add some variety and to satisfy our collective sweet tooth, we're going to have a dessert potluck this year. If you are so inclined, bring a dessert to share (don't worry, you can still partake even if you don't contribute). Reserve your place by sending a check payable to HPS (\$38 per person, if received by 1/4/14; \$43 per person, thereafter) to Reservationist: Alice Goldman, PO Box 481148, Los Angeles, CA 90048 [Reservation Form](#)

I: Rattlesnake Peak (5826'): Join us for an adventure via a new route, an approach not possible for about half a century. In 2013, as Peter persisted in post-stroke activity to recover strength and skills, we tackled the west side of Fang. We discovered that the hot shots fighting the 2012 Williams fire had cleared, by hand, the length of the previously impenetrable crest. A second and bigger discovery (it was not visible from the road below) was the best flower display we had ever seen in the San Gabriels: purple painted slopes of giant Canterbury Bells and a treasure of bright yellow poppies and various flowers and colors. This weekend's hike may not be as fortuitous as last April, but the high spirit and exhilaration of exploring and venturing up a new route remain. I: Eagle Mountain #1 (5350'): Join us for an enjoyable cross-country backpack trip into the Eagle Mountains of Joshua Tree National Park. 12-mile round-trip with 2400 ft. of gain. The Eagle Mountains are an appealing destination that mark the transition between Colorado Desert and higher-elevation Mojave Desert ecological zones. Desert saltbush, creosote bush and cholla cactus of the low-elevation Colorado Desert give way to uniquely beautiful Joshua Trees as we hike to the peak of Eagle Mountain #1. Saturday we will hike 3.5 miles off-trail to dry camp area, set up camp and then hike 4.2 miles round-trip to summit. Return to camp for happy hour and good conversation. Sunday morning will begin at a leisurely hour to break camp. On the return hike we will visit historic Mastodon Mine and Cottonwood Spring. Bring 10 essentials, all water, and a pleasant demeanor. Peak name informally given by the HPS, based on a benchmark named "Ken" (1941). In this case "Ken" was almost certainly derived from the infamous Kenworthy Mine which once existed 2.3 air miles to the northwest. I: Hildreth Peak (5,065'): Moderate paced, strenuous 16-mile RT, 4,700' gain, cross-country route from the south up through Agua Caliente Canyon. We'll start out along a gently babbling creek where we'll travel up through trees before heading up a steep, loose, sometimes brushy ridge to an old jeep road leading to this peak named after Joel Hildreth, one of the first Forest Rangers in the 1890s to patrol this gorgeous area of California formerly inhabited by the Chumash. And for an added bonus, we'll get to see the spectacular "miniature Hoover Dam" enroute, a sight often missed by the unknowing. Suitable only for seasoned and well-conditioned hikers. Consider car or tent camping near the trailhead to facilitate early Sunday morning start. Bring lug soles, water, lunch, layers & hat. Contact the leader for meeting information. Christine Soskins 858-220-9697 csoskins@gmail.com

25th Annual Waterman Rendezvous - Celebrate the HPS's milestone 25th Annual Waterman Rendezvous with your hiking friends and Bill Burke, an accomplished mountaineer with more than one milestone to his name. Bill is the only person to climb the highest mountain on every continent after reaching age 60; his commitment to climbing mountains is exceeded only by his commitment to his family. Waterman Mtn is located in one of the most beautiful sections of the Angeles National Forest, with stunning pines, great views, and an exciting summit block. A number of HPS hikes will make their way to the summit, converging to create the biggest potluck in the Angeles National Forest (if we do say so ourselves!). Bring a great attitude, a treat to share, and appropriate hiking gear. Check OARS often for details on each hike's statistics, meeting time, and leader contact information.

I: East Fork Traverse [Vincent Gap (6560') to Heaton Flat (2030')]: Memorable and magnificent aptly describe this adventure. Join us for a repeat. Usher in autumn, in the same way we greeted summer, venturing into the spectacular Sheep Mountain Wilderness and journeying down the East Fork of the San Gabriel River. We'll voyage down the wooded Vincent Gap trail to the remote wild habitat of the wide river bed created by the confluence of Vincent Gulch, Mine Gulch and Prairie Fork. Navigating to the convergence with the magnificent Fish Fork, and then past Iron Fork, rock hops and stream crossings along the way, we will enter the Narrows. Not only is this the deepest gorge in Southern California, rising 5200' and 4000' to the east and west, the Narrows' rugged grandeur may make it the most beautiful and unforgettable. Our exploration will take us to the arched concrete Bridge to Nowhere, through a corridor of prospecting history, and out to Heaton Flats. Though a car shuttle makes this only about 500' gain (4560' loss) and 16.5 miles, this one day quest is only for the skilled experienced hiker. From Telescope Peak, the high point of Death Valley National Park, you can gaze upon the highest point in the contiguous United States, Mt. Whitney (14,505'). Turn around and view Badwater, the low point of DVNP and the lowest point in North America (-280 feet). Aim high with us. Climb the crown of the Panamint Mountains as a one day BW2T.
